

CDC Foundation Active Programs
October 1, 2021 - September 30, 2022

This document provides a list of CDC-led CDC Foundation programs that were active between October 1, 2021, and September 30, 2022. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of the funding provided during the fiscal year. Where applicable, funding partners from previous years are listed. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	CDC Fiscal Year 2022		Cumulative Funding (All Years)
					Committed Award	Cash	
6/1/2020	9/30/2022	500 Cities and Beyond	To expand the 500 Cities Project to provide high-quality, small-area health data to other geographies in the United States.				\$1,153,709.00
				Robert Wood Johnson Foundation			
7/1/2017	2/28/2023	Accelerating Development of Global Costed Plans	To assist countries with developing costed, funded plans that address the gaps identified by the World Health Organization-led Joint External Evaluation (JEE) process, with the goal of helping countries reach compliance with the International Health Regulations. The CDC Foundation and CDC will support eight countries as they develop draft costed plans and help them identify funding to implement the plans.				\$2,831,299.00
				International Union Against Tuberculosis and Lung Disease			
				Vital Strategies			
9/1/2021	7/31/2023	Accelerating the Impact of Erase Maternal Mortality	To accelerate innovation and extend impact on community-based actions emphasizing cardiovascular conditions and other leading causes of maternal mortality.				\$2,649,568.00
				Centers for Disease Control and Prevention*	\$1,980,364.00		
9/1/2021	7/31/2022	Addressing Social Determinants of Health through How Right Now	To increase awareness of the mental health challenges some Americans are experiencing related to social determinants of health, chronic disease and the COVID-19 pandemic.				\$500,000.00
				Centers for Disease Control and Prevention			
9/1/2015	On-going	AIDS and Kaposi's Sarcoma in Uganda	To perform Human Herpesvirus-8 (HHV-8) diagnostics on specimens from a University of California San Francisco study on antiretroviral therapy for patients with AIDS and Kaposi's sarcoma in Uganda.				\$63,000.00
				University of California, San Francisco			
8/1/2020	7/31/2023	Analysis and Dissemination of Population-Based Sickle Cell Disease	To build the capacity of a state to conduct longitudinal data collection for sickle cell disease to inform better care and treatment practices for sickle cell disease patients and providers.				\$461,600.00
				Centers for Disease Control and Prevention*	\$155,800.00		
10/1/2020	10/29/2023	Analysis of Immunogenicity and Shedding of New Oral Poliovirus Vaccines	To provide laboratory support for the analysis of immunogenicity and shedding of new oral Poliovirus vaccines in human clinical trials and related issues for polio endgame.				\$2,673,690.00
				Bill & Melinda Gates Foundation			
11/12/2021	8/31/2023	Antimalarial Resistance Monitoring in Africa	To pilot the training of scientists at the first PARMA (President's Malaria Initiative-supported Antimalarial Resistance Monitoring in Africa) site in Africa in Senegal.				\$1,499,999.00
				Bill & Melinda Gates Foundation*	\$1,499,999.00		
7/6/2016	7/5/2022	Assessment of Occupational Fall Hazards	To improve worker safety while using mast climbing work platforms.				\$100,000.00
				Job-Site Safety Institute			
9/20/2019	3/31/2024	Biomarker Discovery through Serum Epitope Repertoire Analysis (SERA)	To optimize interventions and tools to enable the elimination and eradication of prioritized Neglected Tropical Diseases (NTDs) as identified by the London Declaration.				\$2,940,432.00
				Bill & Melinda Gates Foundation*	\$2,006,942.00		
4/1/2021	7/31/2023	Building Capacity of Community-Based Organizations to Address COVID-19 Response Needs	To build the capacity of public health departments in state, territorial and local health departments to provide vaccination services to their populations, especially communities of color.				\$20,000,000.00
				Centers for Disease Control and Prevention			
8/1/2019	7/31/2022	Building Community Support for Veteran Suicide Prevention	To build the capacity of community-based organizations serving U.S. military veterans to help prevent suicide among veterans by exploring gaps and opportunities around an upstream approach to veteran suicide prevention.				\$140,000.00
				Centers for Disease Control and Prevention			
8/1/2020	7/31/2023	Building Non-Governmental Organization Capacity to Prevent Veteran Suicide	To build capacity of community-based veterans serving organizations to test and implement CDC's veteran suicide prevention strategies.				\$1,400,000.00
				Centers for Disease Control and Prevention*	\$800,000.00		
8/1/2018	7/31/2022	Building the Evidence Base for Infectious Human Norovirus	To determine the persistence of infectious human norovirus using a novel stem-cell derived system of stainless steel coupons and carpet in long-term care facilities.				\$375,000.00
				Clemson University			
7/3/2019	3/31/2023	Burkina Faso Micronutrient Survey	To design and implement a high-quality comprehensive nationally representative micro-nutrient status household survey in Burkina Faso.				\$2,000,000.00
				Bill & Melinda Gates Foundation			

						CDC Fiscal Year 2022			
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)		
9/1/2022	7/31/2023	Business Case for Hypertension Control in the Workplace	To establish a business case for the cost-effectiveness of investments in hypertension control by developing an economic cost analysis tool for business leaders that promotes evidence-based strategies to control hypertension and prevent cardiovascular risk factors among employees. The National Hypertension Control Roundtable will help inform the development of the tool and the business case. The target population for this project is employers in the United States.						\$400,000.00
				Centers for Disease Control and Prevention*	\$400,000.00				
8/1/2018	7/31/2023	Capacity Building for Public Health Analysts in the Overdose Response Strategy	To build the capacity of the Overdose Response Strategy (ORS) program through sourcing, hiring, training and providing technical assistance to public health analysts in 50 states, Puerto Rico and the U.S. Virgin Islands.						\$21,065,000.00
				Centers for Disease Control and Prevention*	\$8,400,000.00				
10/20/2021	12/31/2023	Characterization of Non-Rotavirus Viral Diarrheal Pathogens	To support the characterization of non-rotavirus viral diarrheal pathogens to inform the body of work that contributes to optimizing the efficacy of rotavirus vaccines.						\$1,183,158.00
				Bill & Melinda Gates Foundation*	\$1,183,158.00				
6/22/2020	12/31/2022	Cholera Surveillance in Haiti	To strengthen the surveillance system for the elimination of cholera in Haiti.						\$620,400.00
				World Health Organization					
7/17/2015	On-going	Chronic Hepatitis B Virus Infection in Tanzania	To implement and evaluate the feasibility of a care and treatment model for persons infected with chronic hepatitis B virus in resource-limited settings.						\$439,252.74
				Gilead Sciences, Inc.					
3/31/2013	11/30/2021	Clinical Trials Unit for HIV/AIDS and Tuberculosis Research	To facilitate formation of a Clinical Trials Unit for HIV/AIDS and tuberculosis research to advance therapy and prevention. If the interventions in the clinical trials are determined safe and effective, they will add to the options available to prevent and control these diseases of global significance.						\$2,472,879.75
				Emory University					
4/30/2021	4/29/2023	Community-Based Organization Support to Increase Equitable Vaccination Coverage	To support community-based organizations to increase vaccination coverage across different racial and ethnic adult populations currently experiencing disparities.						\$46,888,042.00
				Centers for Disease Control and Prevention*	\$21,227,994.00				
4/2/2020	3/31/2023	Consolidating Tuberculosis Analytics and Evidence Tools	To create comprehensive documentation on effective and efficient country engagement approaches for tuberculosis data and evidence-related activities.						\$709,180.00
				Bill & Melinda Gates Foundation					
2/5/2021	6/30/2022	Contraceptive Use Module for States	To support state use of contraceptive use assessment within the family planning module on the Behavioral Risk Factor Surveillance System. This effort will allow for the development of state-level estimates of the methods of contraception used and reasons for not using contraception.						\$1,705,986.00
				Gutmacher Institute					
6/1/2020	1/31/2025	Controlling Mosquito Vectors of Malaria	To develop data that will contribute to an assessment of whether transgenic mosquitoes could be effectively and safely deployed to control natural populations of malaria vectors.						\$1,264,335.50
				Imperial College London*	\$479,972.63				
11/1/2016	12/31/2022	Cryptococcal Screening and Treatment	To continue implementation of a cryptococcal meningitis screen and treat program in nine African countries to preemptively treat patients and avoid potential infection or death.						\$5,384,082.00
				Pfizer Inc.					
3/1/2015	3/31/2023	Data for Health	To assist 25 low- and middle-income countries across Latin America, Asia and Africa in strengthening their public health data systems and data use for critical policy-making decisions.						\$64,585,326.00
				Bloomberg Philanthropies*	\$16,774,343.00				
9/1/2022	7/31/2023	Data Modernization Initiative Working Groups	To increase communities' access to complete, timely and user-friendly data and maximize health improvements through data- and science-driven practices.						\$1,915,914.88
				Centers for Disease Control and Prevention*	\$1,915,914.88				
9/1/2022	7/31/2023	Data Modernization Shared Services Development, Testing and Pilots	To develop shared services tools that facilitate near real-time exchange of well-processed data at scale for diverse public health needs and support testing of solutions in real-world settings with emphasis on ensuring rapid user adoption and implementation of shared services across the public health ecosystem.						\$4,819,813.38
				Centers for Disease Control and Prevention*	\$4,819,813.38				
6/13/2019	On-going	Digital Bridge Information Exchange between Healthcare Sector and Public Health	To use a public-private partnership model that includes significant collaboration among three major stakeholder communities (healthcare providers, healthcare information technology vendors and public health) to promote crucial health data interoperability.						\$4,788,828.00
				Sergey Brin Family Foundation					
11/1/2019	3/31/2023	Early Childhood Nutrition Surveillance Optimization	To optimize surveillance and measurement of early child health by adding questions on diet, feeding practices, screen-time and/or activity to the National Survey of Children's Health, and to assess the availability of training products or tools for early care and education or home visiting settings on appropriate measurement of key child behaviors and healthy growth.						\$2,454,033.00
				Robert Wood Johnson Foundation					

						CDC Fiscal Year 2022			
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)		
9/1/2019	12/31/2023	Eliminating Lymphatic Filariasis in American Samoa	To stop the spread of lymphatic filariasis and alleviate the suffering of those impacted by providing technical support to the department of health with the goal of eliminating lymphatic filariasis in American Samoa by 2025.						\$1,000,000.00
				Margaret A. Cargill Philanthropies					
4/1/2020	7/31/2023	Emergency Response Fund-Coronavirus Federal	To partner with public health authorities to respond to the COVID-19 pandemic through distribution of personal protective equipment for front-line workers, providing laboratory and medical equipment, testing support, hiring surge staff for health departments, sponsoring national communication campaigns, aiding long-term care facilities and community-based organizations serving vulnerable populations and supporting research.						\$68,939,536.86
				Centers for Disease Control and Prevention					
11/11/2019	12/31/2022	EmPOWERED Health Program	To improve cancer outcomes by educating and empowering people to become proactive participants in their own health and improve patient-physician conversations and shared decision making.						\$2,000,000.00
				Amgen Inc.					
11/14/2019	10/31/2021	Ending Tuberculosis in Vietnam	To move towards tuberculosis (TB) elimination through scaling up demonstrated effective case-finding and treatment methods for both active and latent TB in Ho Chi Minh City based on lessons learned from the TB Reach Zero TB Viet Nam (ZTV) project.						\$200,000.00
				Taiwan Centers for Disease Control, Ministry of Health and Welfare, Republic of China					
5/1/2014	On-going	Endocrine Disruptors and Uterine Fibroids	To evaluate exposure to phthalates, polychlorinated biphenyls (PCB) and bisphenol A (BPA) in relation to incident uterine leiomyomata (UL) in an established cohort of women from the Study of Environment, Lifestyle and Fibroids (SELF).						\$875,012.00
				Boston University					
8/1/2021	7/31/2023	Engaging the Arts to Build Vaccine Confidence	To fund up to 30 arts-related organizations to build vaccine confidence in U.S. communities with lower vaccination rates.						\$2,500,000.00
				Centers for Disease Control and Prevention					
8/1/2021	7/23/2023	Enhancing Community Acceptance of Syringe Services Programs Through MicroInfluencing	To understand how syringe services programs have been successfully implemented in the past within different jurisdictions and identify what standardized, scientifically peer reviewed evaluation measures exist to measure the effectiveness of interventions.						\$2,050,000.00
				Centers for Disease Control and Prevention*	\$450,000.00				
8/1/2021	7/31/2023	Enhancing Community Capacity to Support HIV Self-Testing	To build and expand the capacity of community-based organizations to implement and improve HIV self-testing programs.						\$9,000,000.00
				Centers for Disease Control and Prevention					
8/1/2020	7/31/2023	Environmental Control of SARS-CoV-2 in Food Establishments	To provide an evidence base for the food service industry to help navigate the COVID-19 pandemic.						\$214,588.00
				University of Arkansas at Little Rock					
10/1/2017	11/30/2021	Environmental Phenols in Inner City Children	To investigate the association between exposure to phenols with antimicrobial properties and asthma morbidity in inner city African American children.						\$138,524.50
				University of Maryland, Baltimore					
3/1/2020	11/30/2023	Evaluating and Improving WASH Efforts in Niger	To increase access to effective water, sanitation and hygiene (WASH) infrastructure in healthcare facilities in Niger.						\$121,562.00
				WorldVision Inc.					
9/16/2022	9/30/2024	Evaluating HPV Vaccine Induced Antibodies in Botswana	To evaluate the impact of HPV vaccines and the persistence of HPV antibodies among HPV-vaccinated women living with HIV in Botswana.						\$512,815.00
				Bill & Melinda Gates Foundation*	\$512,815.00				
2/22/2021	1/31/2025	Evaluating the Impact of the Pneumococcal Conjugate Vaccine Introduction in Indonesia	To conduct an evaluation before and two years after the introduction of the Pneumococcal conjugate vaccines (PCV) to study the direct and indirect impact of PCV introduction on vaccine-type pneumococcal carriage among healthy Indonesian children under five years of age.						\$2,297,786.00
				Bill & Melinda Gates Foundation					
9/30/2021	9/30/2024	Evaluating Tuberculosis Preventive Treatment in People Living with HIV	To determine the impact of Tuberculosis preventative treatment among populations living with HIV.						\$4,766,680.00
				Bill & Melinda Gates Foundation					
1/8/2021	11/30/2022	Evaluation of Malaria Specimen Bank - Phase V	To analyze blood samples to determine what species of human malaria parasites are present in the specimens as part of an evaluation of a global malaria specimen bank.						\$263,846.82
				World Health Organization					
3/30/2020	12/31/2022	Evaluation of Malaria Vaccine Implementation	To evaluate the feasibility, impact and safety of RTS,S/AS01E malaria vaccine implementation through routine health systems in moderate to high malaria transmission settings in sub-Saharan Africa.						\$5,302,264.00
				World Health Organization*	\$2,516,395.00				
3/1/2018	2/28/2022	Evaluation of Novel Polymer-Based Implant	To evaluate a polymer-based in-situ forming implant and its ability to provide long-lasting protection against HIV infection.						\$271,160.00
				University of North Carolina at Chapel Hill					

						CDC Fiscal Year 2022			
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)		
11/3/2018	12/31/2022	Evaluation of Pneumococcal Conjugate Vaccine Schedule Change	To evaluate the impact of a pneumococcal conjugate vaccine schedule change in Mozambique on vaccine-type pneumococcal carriage and invasive pneumococcal disease; and serotype 1 colonization among patients with suspected pneumonia and serotype 1 disease among children and adults.	Bill & Melinda Gates Foundation			\$2,612,566.00		
4/7/2016	12/31/2021	Evaluation of Rotavirus Vaccine in Vietnam	To establish rotavirus surveillance, implement rotavirus vaccination introduction and evaluate impact and effectiveness of rotavirus vaccination in targeted districts in Vietnam.	Bill & Melinda Gates Foundation			\$1,194,965.00		
9/1/2021	7/31/2023	Expanding Capacity to Address the Drug Overdose Epidemic	To build the capacity of communities to implement overdose prevention activities through staffing support to jurisdictions.	Centers for Disease Control and Prevention*	\$9,087,646.00		\$29,517,126.00		
5/16/2022	9/6/2024	Expanding Firefighting Personal Protective Equipment Cleaning Validation Procedures	To lessen firefighter exposure to harmful contaminants from uncleaned or improperly cleaned personal protective equipment (PPE) that improves firefighter safety and health.	The Fire Protection Research Foundation*	\$270,841.00		\$270,841.00		
11/1/2008	9/30/2023	Field Epidemiology Training Program (FETP) in Saudi Arabia - Phase II	To evaluate Saudi Arabia's infectious disease surveillance system, help train local and regional disease detectives and improve the country's capacity to monitor for and respond to infectious disease outbreaks.	Kingdom of Saudi Arabia Ministry of Health			\$4,880,191.08		
4/3/2022	4/2/2025	Field Epidemiology Training Program (FETP) in Qatar	To assist the Ministry of Public Health in establishing a Field Epidemiology Training Program (FETP) in Qatar focused on building its public health workforce capacity.	State of Qatar Ministry of Public Health*	\$2,311,663.00		\$2,311,663.00		
8/30/2018	8/30/2022	Firefighter Cancer Cohort Expansion	To examine the exposure and health effects in arson investigators, trainers, volunteers and wildland-urban interface firefighters.	University of Miami			\$405,320.00		
6/1/2012	12/31/2023	Folate Status in the United Kingdom Population	To determine folate status across the United Kingdom in order to establish a population baseline should mandatory folic acid fortification proceed.	MRC Human Nutrition Research			\$692,527.97		
9/14/2018	9/13/2022	Gas and Particulate Exposure on Personal Protective Equipment	To better understand how gas and particulate exposure impacts the personal protective equipment of firefighters.	University of Illinois at Urbana-Champaign			\$302,441.00		
4/26/2020	12/31/2021	GAVI Alliance Partner Engagement Framework (2020)	To conduct vaccine research and surveillance with several countries to determine the burden of vaccine preventable diseases. The partnership will enhance the quality of disease and coverage data and assess vaccine impact.	Gavi Alliance			\$5,748,734.00		
6/2/2021	9/30/2022	GAVI Alliance Partner Engagement Framework (2021)	To conduct vaccine research and surveillance with several countries to determine the burden of vaccine preventable diseases. The partnership will enhance the quality of disease and coverage data and assess vaccine impact.	Gavi Alliance			\$3,159,617.43		
7/1/2022	12/31/2025	GAVI Alliance Partner Engagement Framework (2022-2025) - Foundational Support	To coordinate the programmatic implementation of Gavi's 2022-2025 Partners' Engagement Framework, leading to increased equitable use of vaccines in lower-income countries.	Gavi Alliance*	\$1,034,000.00		\$1,034,000.00		
12/20/2017	12/19/2022	Global Cardiovascular Health Partnership	To strengthen the global evidence base of the management of cardiovascular diseases; improve point-of-care testing; and monitor trends within the global noncommunicable disease burden.	Amgen Inc.*	\$329,108.00		\$2,729,108.00		
8/21/2019	On-going	Global Pediatric Norovirus Surveillance Network	To develop a Global Pediatric Norovirus Laboratory Surveillance Network to monitor norovirus strains and provide data critical for decision-making related to norovirus vaccination.	Takeda Vaccines, Inc. Vaxart, Inc.			\$310,000.00		
2/1/2020	11/30/2023	Global Pneumococcal Sequencing 2.0	To generate knowledge on the globally spreading Streptococcus pneumoniae (pneumococcal) lineages that may drive serotype replacements in pneumococcal pneumonia and changes in the prevalence of antibiotic resistance in the post-PCV13 era.	Wellcome Sanger Institute			\$644,163.00		
2/1/2018	12/31/2022	Global Road Safety Clearinghouse and Evaluation Lab	To launch an information clearinghouse and evaluation lab for global road safety partners and champions interested in evaluating their programs and/or identifying evidence-based practices for implementation in the field.	FIA Foundation			\$97,960.05		
6/15/2016	12/31/2022	Global Rotavirus and Invasive Bacterial Vaccine Preventable Diseases (IBVPD) Reference Laboratory	To help CDC serve as a global reference laboratory for rotavirus and the invasive bacterial vaccine preventable diseases (IBVPD) laboratory networks, which provide support to the WHO-coordinated global rotavirus and the global IBVPD surveillance networks.	World Health Organization			\$471,846.00		

						CDC Fiscal Year 2022			
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)		
9/16/2021	9/29/2024	Health Security and Health Threats Response in Haiti	To support Haiti's COVID-19 vaccine distribution efforts as well as water and sanitation improvements in response to the 2021 earthquake.				\$9,080,169.00		
				Centers for Disease Control and Prevention*	\$3,552,000.00				
1/1/2019	On-going	Healthy Homes, Healthy People on Navajo Nation	To reduce the incidence of the rodent-borne disease hantavirus among residents of the Navajo Nation by preventing exposure to the virus through empowering residents to repair and reinforce their homes against rodents, notably deer mice, the vector species for hantavirus.				\$100,000.00		
				Reckitt					
9/1/2021	7/31/2023	HEAR HER American Indian/Alaska Native Campaign Development and Implementation	To build capacity and support the development, implementation and evaluation of materials for the "Hear Her" campaign.				\$700,000.00		
				Centers for Disease Control and Prevention*	\$350,000.00				
7/1/2022	7/31/2023	HEAR HER Expansion: American Indian/Alaska Native and Global Formative Work	To expand the reach of Hear Her resources for healthcare professionals and American Indian and Alaska Native communities in the United States and to conduct exploratory formative work to determine the feasibility of a new segment of the campaign to reach a global audience.				\$626,400.00		
				Merck Sharp & Dohme Corp.*	\$626,400.00				
9/1/2018	8/31/2022	History, Immunity and Transmission Patterns of Sapovirus	To conduct a birth cohort study in Nicaragua to better understand the epidemiology, immunity and transmission patterns of sapovirus using next-generation sequencing strategies.				\$232,032.00		
				University of North Carolina at Chapel Hill					
12/1/2020	11/30/2022	HIV Prevention Trials Network	To evaluate the efficacy of injectable pre-exposure prophylaxis (PrEP) for HIV-uninfected cisgender men and transgender women who have sex with men.				\$2,042,978.00		
				FHI 360*	\$434,424.00				
1/1/2022	4/30/2023	Home-Based PrEP for Youth	To evaluate a model of oral HIV pre-exposure prophylaxis (PrEP) implementation for youth that includes home PrEP (with fewer in-person clinic visits and a telemedicine approach). The objective is to evaluate the safety, acceptability of and adherence to home-based daily oral PrEP among young men who have sex with men and transgender women.				\$289,274.00		
				American Foundation for AIDS Research (amfAR)*	\$289,274.00				
12/1/2009	On-going	Hormone Laboratory Collaborations	To help CDC provide reference and quality control materials for laboratory collaboration, including collaborations for the Hormone Measurement Standardization program.				\$7,018,283.48		
				Abbott Ireland					
				Abbott Laboratories					
				Abbott Standard Diagnostics, Inc.					
				Academic Hospital Paramaribo

8/1/2016	On-going	Hormone Laboratory Collaborations 2.0	To help CDC provide reference and quality control materials for laboratory collaboration, including collaborations for the Hormone Measurement Standardization program.				\$435,368.30	
10/1/2018	12/31/2023	Immunologic Endpoints Against Young Infant Group B Streptococcal Disease	To provide a case-control study comparing naturally occurring group B strep antibodies in young infants with invasive disease versus controls that will establish antibody thresholds associated with protection and inform decisions about future maternal Group B Streptococcus vaccine licensure.	National Institutes of Health			\$5,030,468.00	
				Bill & Melinda Gates Foundation*	\$820,068.00			
11/28/2016	12/31/2022	Impact Assessment of Rotavirus Vaccine in Pakistan	To provide evidence about the public health impact and benefits on child health after the introduction of rotavirus vaccine into the Pakistan National Immunization Program system.	St. George's, University of London			\$2,021,967.00	
10/1/2021	9/30/2023	Implementation and Monitoring of Overdose Prevention Programs and Policies	To develop a technical package for states to reduce overdose deaths and indicators for state progress for overdose death prevention.	Bill & Melinda Gates Foundation			\$2,515,000.00	
				Bloomberg Philanthropies*	\$2,515,000.00			

						CDC Fiscal Year 2022			
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)		
9/11/2019	6/30/2023	Improved Tracking of Healthcare-Associated Infections	To improve tracking of healthcare-associated infections (HAIs) across community and healthcare settings by developing an innovative process and methods for linking and analyzing data that spans inpatient and community exposures and healthcare utilization in order to identify opportunities for prevention and early recognition.						\$2,874,284.00
				Pfizer Inc.					
12/15/2021	12/14/2023	Improving Engagement in Community Level Data Collection	To improve the nation's access to community-relevant and nationally significant data that measure health and equity.						\$2,027,005.80
				Robert Wood Johnson Foundation*	\$2,027,005.80				
3/15/2020	2/28/2022	Improving Firefighter Protective Equipment	To improve firefighter safety and health by reducing exposure to harmful contaminants in personal protective equipment (PPE).						\$335,356.00
				The Fire Protection Research Foundation					
8/1/2020	7/31/2022	Improving Linkages to Address Opioid Use Disorder among Pregnant and Postpartum Women	To better address opioid use disorder among pregnant and postpartum women by providing support and technical assistance to maternal mortality review committees and perinatal quality collaboratives; and building upon efforts to advance the surveillance of both fatal and nonfatal opioid use, while strengthening state coordination to advance policy and program, including quality improvement, to help women and infants impacted by opioid use disorder.						\$1,050,000.00
				Centers for Disease Control and Prevention					
9/1/2022	7/31/2023	Improving Maternal - Infant Health and Health Care	To build capacity and provide field support for maternal-infant health (MIH) efforts by enhancing training and technical assistance resources that support organizations such as perinatal quality collaboratives (PQCs) to improve quality care.						\$501,704.00
				Centers for Disease Control and Prevention*	\$501,704.00				
9/1/2021	7/31/2023	Improving Maternal Infant Health COVID-19 Surveillance and Clinical Care	To support maternal-infant health COVID-19 surveillance as well as to integrate COVID-19 vaccination and other efforts to reduce severe illness from COVID-19 with the CDC strategic areas of focus.						\$2,600,000.00
				Centers for Disease Control and Prevention*	\$850,000.00				
8/1/2020	7/31/2023	Improving Mental, Behavioral and Academic Supports to Students and Families	To improve mental, behavioral and academic support to students, families and teachers by sharing resources and information about COVID-19.						\$1,220,000.00
				Centers for Disease Control and Prevention*	\$720,000.00				
12/10/2018	1/31/2022	Improving Nutrition for Adolescents in Bangladesh	To demonstrate the effectiveness and scalability of using the secondary school platform to deliver iron and folic acid to improve the nutrition and health status of adolescents in selected districts of Bangladesh.						\$409,354.12
				Nutrition International					
8/1/2020	7/31/2023	Improving STD Prevention and Care Through Partnerships (Years 3-5)	To conduct research and analysis that will provide public health professionals, policy makers and legislators with an evidence-base to address gaps in care and service for Medicaid patients seeking STD care.						\$1,375,000.00
				Centers for Disease Control and Prevention*	\$500,000.00				
1/1/2020	7/31/2023	Improving Testing Protocol for Inhibitors in Hemophilia	To determine whether inhibitor testing can be more efficiently, cost-effectively and accurately executed.						\$372,441.20
				Genentech, Inc.					
4/1/2018	2/28/2023	Improving Understanding of Drowning in Africa	To improve understanding of the types and circumstances of drowning in Sub-Saharan Africa in order to develop, inform and implement drowning prevention programs to mitigate drowning risks and save lives.						\$2,420,000.00
				Bloomberg Philanthropies*	\$119,000.00				
5/5/2022	6/1/2024	Improving Water, Sanitation and Hygiene Services in Healthcare Facilities	To expand CDC's strategic engagement in learning and evaluation of best practices for water, sanitation and hygiene (WASH) in healthcare facilities through implementation of targeted action research pilots in Uganda.						\$200,000.00
				Wallace Genetic Foundation*	\$200,000.00				
9/20/2019	8/1/2023	Indian Rotavirus Vaccines in Early Adopter Countries	To show the health impact of low-cost, Indian-made rotavirus vaccines in high burden, low-income countries of Africa and Asia.						\$1,673,274.00
				Bill & Melinda Gates Foundation					
7/6/2020	12/31/2023	Innovations in Antenatal and Postnatal Care in Kenya	To strengthen pregnancy surveillance and service delivery as part of the antenatal and postnatal care research collective at the Child Health and Mortality Prevention Surveillance site in Kenya.						\$874,113.00
				Bill & Melinda Gates Foundation					
11/15/2019	12/31/2022	Integrated Serosurveillance Center and Serologic Surveillance in Nigeria	To scale capacity for integrated serosurveillance in Africa and to conduct integrated serologic surveillance using stored samples from Nigeria's HIV Impact Survey.						\$2,199,500.00
				Bill & Melinda Gates Foundation					
11/5/2019	12/31/2022	Integrating Genomic Data Surveillance in Senegal	To scale and integrate genomic epidemiology approaches into real world malaria control and elimination surveillance and decision-making strategy in Senegal, a malaria endemic country.						\$177,596.00
				Harvard University T.H. Chan School of Public Health					
6/27/2022	12/30/2024	Investigating Safety and Efficacy of L9LS Monoclonal Antibodies in Western Kenya	To investigate novel interventions such as monoclonal antibodies (MAbs) against malaria. An intervention that could prevent malaria in children for a full 12 months in settings of perennial malaria transmission, such as Kenya, holds potential to reduce malaria morbidity and mortality substantially in this population at risk for severe malaria and death.						\$4,946,789.00

					CDC Fiscal Year 2022		
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
				Bill & Melinda Gates Foundation*	\$4,946,789.00		
6/1/2018	6/30/2023	Laboratory Surveillance for Pneumococcal Meningitis in India	To strengthen laboratory surveillance for pneumococcal meningitis and serotyping in India to understand the impact of a pneumococcal conjugate vaccine rollout.				\$1,031,740.00
				Bill & Melinda Gates Foundation			
11/1/2019	10/31/2021	Labs for Life 2020	To support an annual planning meeting and provide technical assistance in India regarding infection prevention and control data sharing and best practices.				\$103,835.00
				BD			
8/16/2020	8/15/2022	Lehigh Valley Public Health Informatics Fellowship	To embed a CDC Public Health Informatics Fellow within the Lehigh Valley healthcare system to solve complex public health informatics challenges by linking informatics, population health science and data on social determinants of health.				\$266,978.00
				The Dorothy Rider Pool Health Care Trust			
9/1/2021	7/31/2023	Leveraging Centers for Independent Living to Increase Vaccines for People with Disabilities	To support Centers for Independent Living (CILs) in increasing access to COVID-19 vaccination.				\$7,220,000.00
				Centers for Disease Control and Prevention			
7/23/2021	11/30/2023	Leveraging WHO Rotavirus Surveillance Networks for Diarrheal Pathogens	To leverage World Health Organization (WHO) global rotavirus surveillance by using novel technology to achieve a better understanding of the role of enteric pathogens other than rotavirus in childhood diarrhea requiring hospitalization.				\$416,855.63
				World Health Organization*	\$366,855.63		
8/1/2015	9/30/2022	Making Dialysis Safer for Patients	To reduce potentially deadly bloodstream infections in hemodialysis outpatients by targeting patients, healthcare providers and caregivers using evidence-based communications strategies with prevention messages.				\$456,000.00
				Amgen Inc.			
10/1/2019	6/30/2022	Maternal and Reproductive Health in Tanzania	To focus on improving family planning and maternal health in Tanzania's Kigoma region in the third phase of this project involving CDC, the World Lung Foundation and Engender Health.				\$165,000.00
				Bloomberg Philanthropies			
3/1/2022	3/31/2025	Maternal and Reproductive Health in Tanzania Sustainability Evaluation	To evaluate the sustainability of activities supporting increased availability and access to obstetric care, family planning and comprehensive reproductive health care in Tanzania.				\$2,700,000.00
				Bloomberg Philanthropies*	\$2,700,000.00		
12/1/2021	12/31/2022	MATRIX	To evaluate a novel intravaginal ring to prevent HIV infection combined with a contraceptive to prevent unintended pregnancy. MATRIX stands for Microbicide R&D to Advance HIV Prevention Technologies through Responsive Innovation and eXcellence.				\$81,562.50
				Oak Crest Institute of Science*	\$81,562.50		
3/5/2020	2/28/2023	Mechanisms of Norovirus Protective Immunity	To screen a subset of human and mouse monoclonal antibodies for their ability to neutralize GI.1, a time ordered panel of GI.4 and GI.3 noroviruses using a novel human intestinal enteroid cell culture system.				\$267,840.00
				University of North Carolina at Chapel Hill*	\$90,000.00		
8/1/2018	7/31/2023	Medical Examiner and Coroner Data Modernization Implementer's Group	To support medical examiners, coroners and their data partners in exploring, testing and innovating data modernization strategies.				\$1,469,914.88
				Centers for Disease Control and Prevention*	\$1,469,914.88		
10/1/2013	12/31/2023	MenAfriNet Meningitis Surveillance in Africa (MenAfriNet II)	To improve scientific understanding of meningitis to guide research on new vaccines and strategies, and to optimize impact of existing vaccines in the African meningitis belt.				\$4,999,999.00
				Bill & Melinda Gates Foundation			
2/18/2020	9/30/2023	Microneedle Patch for Measles and Rubella Vaccination	To support the continuing development of a dissolving microneedle patch for measles and rubella vaccination. This patch is designed to be easily administered as a single dose by minimally trained personnel, to generate no sharps waste and to improve stability outside of the cold chain, enabling house-to-house campaigns and improving routine and campaign vaccination coverage.				\$370,035.00
				Bill & Melinda Gates Foundation			
12/1/2019	12/31/2023	Million Hearts 2020	To provide a health communication campaign related to heart disease education and prevention in the United States with the goal of informing Americans ages 35-64 of the risk factors of heart disease and stroke and inspiring action.				\$11,300,000.00
				Amgen Inc.			
				Bayer Corporation			
7/1/2019	12/31/2022	Monitoring E-Cigarette Use Among Youth	To implement a three-pillar strategy of pre- and post-measurements to complement existing surveillance activities and assess e-cigarette policy impact. The proposed pillars are: 1) adding more nuanced key indicators to state-based youth surveillance systems; 2) accessing real-time data on retail sales of e-cigarettes; and 3) leveraging longitudinal web-based surveys.				\$13,700,000.00
				Bloomberg Philanthropies*	\$3,200,000.00		
4/7/2020	12/31/2022	Monitoring Health Outcomes of Assisted Reproductive Technology	To provide research support for analysis of outcomes of assisted reproductive technologies.				\$662,072.00
				Open Philanthropy Project Fund			

						CDC Fiscal Year 2022			
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)		
6/1/2019	9/30/2025	Monitoring Malaria Treatment in the United States	To collect, manage and analyze data on the safety and efficacy of tafenoquine (Krintafel) used for anti-relapse therapy of malaria in the United States.						\$139,299.00
				GlaxoSmithKline Biologicals S.A.					
1/1/2007	12/31/2022	Monitoring the Global Tobacco Epidemic	To support the Bloomberg Initiative to Reduce Tobacco Use by creating, launching and implementing components of the Global Tobacco Surveillance System (GTSS) as well as capacity enhancement for tobacco control programs in high-burden tobacco use countries.						\$113,559,140.00
				Bloomberg Philanthropies					
				Emory University					
				Various Individual Contributors*		\$2,100.00			
9/1/2016	On-going	Mosquito Cryopreservation and Female Elimination	To support cryopreservation and suppression of female development in mosquitoes to assist research for malaria control.						\$2,931,437.78
				Good Ventures Foundation					
				Open Philanthropy Project Fund					
10/28/2019	On-going	Multi-Center Zoliflodacin Study	To evaluate the efficacy of a single oral dose of zoliflodacin in treatment of patients with uncomplicated gonorrhoea.						\$846,434.63
				Global Antibiotic Research & Development Partnership (GARDP Foundation)					
8/1/2020	7/23/2023	National Hypertension Control Roundtable	To provide strategic, technical and operational support to CDC's National Hypertension Control Roundtable.						\$900,000.00
				Centers for Disease Control and Prevention*	\$300,000.00				
8/1/2018	10/31/2024	Newborn Screening of Spinal Muscular Atrophy	To expedite the implementation of newborn screening for spinal muscular atrophy to prevent childhood death and disability.						\$1,500,000.00
				Biogen MA Inc.					
11/23/2015	11/28/2022	Opt-Out Chlamydia Screening Effectiveness	To explore the effectiveness of opt-out chlamydia screening via electronic health record prompt and to increase the percentage of women under the age of 25 who are screened for chlamydia at clinical encounters.						\$709,002.00
				Hologic Inc.					
9/1/2021	8/31/2023	Origin of Innate Immunity Suppression	To further research how viral ovarian tumor protease (vOTU) activity is critical for replication and host tropism of nairoviruses.						\$244,122.22
				University of California, Riverside*	\$214,560.00				
8/1/2020	7/31/2023	Partnerships for Public Health with the Nongovernmental Sector (Years 3-5)	To supplement nongovernmental and private sector partnership building, specifically focused on supporting CDC's chronic priorities.						\$900,000.00
				Centers for Disease Control and Prevention*	\$300,000.00				
7/20/2022	6/30/2025	Pathogenic Paramyxovirus Replication in BSL-4 Containment	To develop cell culture and small animal models of Nipah virus replication and pathogenesis in a biosafety level (BSL) 4 lab.						\$2,791,302.00
				Bill & Melinda Gates Foundation*	\$2,791,302.00				
9/20/2019	3/19/2023	Per- and Polyfluoroalkyl Substances Firefighter Exposures and Toxicity	To understand and assess firefighters' exposure to per- and polyfluoroalkyl substances (PFAS) and its impact.						\$131,532.00
				The University of Arizona					
9/1/2021	7/31/2023	Perinatal Infectious Diseases Fellowship Training	To help maximize the understanding of the impact of infectious diseases on maternal-child populations from a public health perspective.						\$782,543.00
				Centers for Disease Control and Prevention*	\$592,543.00				
8/1/2020	7/31/2023	PH WINS Data Visualization Dashboard and Consortium Workforce Development Project	To create a more competent, experienced and diverse U.S. public health workforce. One aspect of this effort includes development of an interactive dashboard to provide key data on community-based organization and state, tribal, local and territorial workforces across a variety of diseases and conditions. In addition, the program includes convening of the National Consortium for Public Health Workforce Development, a coalition of governmental, non-profit, philanthropic, academic and for-profit organizations.						\$475,000.00
				Centers for Disease Control and Prevention					
4/5/2019	3/31/2024	Pneumococcal Conjugate Vaccine Surveillance and Evaluation in Burkina Faso	To support the introduction of a change in Burkina Faso's infant pneumococcal vaccine schedule to include a booster dose and to evaluate the impact of the country's capacity to control pneumococcal disease among children and adults.						\$3,824,907.00
				Bill & Melinda Gates Foundation					
9/1/2022	7/31/2023	Power-Building Partnerships for Community Violence Prevention	To co-create a scalable model of Power-Building Partnerships for Community Violence Prevention alongside community-based organizations and local health departments. Through the development of this scalable model, there will be a shared understanding of health equity and community power-building strategies as well as how best to center the voices and experiences of the communities that are most impacted by community violence.						\$750,000.00
				Centers for Disease Control and Prevention*	\$750,000.00				
11/5/2019	6/30/2022	Pregnancy Outcome and Death Surveillance in Humanitarian Settings	To reduce maternal morbidity and mortality by enhancing the Maternal and Perinatal Death Surveillance and Response approach in humanitarian settings, initially in Chad and Cameroon.						\$874,935.00
				Bill & Melinda Gates Foundation*	\$150,000.00				
1/1/2020	3/31/2023	Preventing Child Sexual Abuse in Youth-Serving Organizations	To provide effective, evidence-based guidance for proactively protecting children and youth from sexual abuse in youth-serving organizations.						\$1,012,095.00

						CDC Fiscal Year 2022			
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)		
				Oak Foundation					
				Porticus Foundation					
				Stiftung Auxilium					
				World Childhood Foundation USA					
7/1/2021	7/31/2025	Preventing Global Child Sexual Abuse	To strengthen the evidence base for primary prevention of youth- or adult-perpetrated child sexual abuse.						\$5,785,842.00
				Oak Foundation					
6/3/2021	6/30/2022	Preventing Infections in Cancer Patients - Support During and After COVID	To develop a comprehensive campaign focusing on preventing infections in cancer patients by targeting patients, their families and their providers to reduce their risk of infection in multiple settings (outpatient office, hospital and home).						\$350,000.00
				Amgen Inc.					
7/1/2012	On-going	Preventing Mother-to-Child Transmission of HIV and HBV	To help CDC increase understanding of the effectiveness of using maternal tenofovir containing combination drug during the second and third trimesters of pregnancy for the prevention of mother-to-child transmission of HIV and HBV in co-infected mothers.						\$362,800.00
				Gilead Sciences, Inc.					
9/14/2020	9/13/2025	Preventing Older Adult Falls and Fall Injuries	To prevent and protect older adults from sustaining falls and fall-related injuries by developing and implementing a risk factor prevention program.						\$4,541,535.78
				Amgen Inc.					
1/30/2020	6/1/2023	Preventing Rocky Mountain Spotted Fever on Tribal Lands	To provide organization and assistance with the scaling of integrated prevention methods, facilitation of training in multiple locations and coordination of numerous agencies and partners to support the prevention of Rocky Mountain Spotted Fever (RMSF) in highly-impacted communities in the Southwest United States.						\$400,000.00
				PetSmart Charities, Inc.					
9/1/2018	6/30/2023	Public Health and Safety Partnerships to Reduce Opioid Overdose	To equip states and localities with the tools necessary to prevent and respond to opioid overdoses through coordination of public health and public safety.						\$2,000,000.00
				Bloomberg Philanthropies					
8/1/2018	7/31/2023	Public-Private Partnerships to Improve Health (Years 1-5)	To implement programming and build the capacity of nongovernmental and private sectors to learn the value and opportunity of building public-private partnerships with public health.						\$750,000.00
				Centers for Disease Control and Prevention*	\$150,000.00				
9/23/2021	8/31/2023	Rotavirus Vaccine Effectiveness and Safety in Nigeria and Indonesia	To strengthen sentinel rotavirus surveillance in Nigeria and Indonesia and enable monitoring of trends in rotavirus hospitalizations pre- and post-vaccine introduction in order to observe the impact of rotavirus vaccines and serve as a platform for case-control evaluations of rotavirus vaccine effectiveness.						\$1,087,608.00
				Bill & Melinda Gates Foundation					
4/1/2022	12/31/2025	Rotavirus Vaccine Impact and Effectiveness Assessments	To ensure impact and effectiveness of rotavirus vaccines and sustain vaccine use by policy makers, physicians and parents to increase the speed of adoption of vaccine by other countries in Africa and around the world.						\$745,009.00
				Gavi Alliance*	\$745,009.00				
12/4/2019	11/30/2023	RSV Genomic Surveillance Leveraging the Global Influenza Surveillance and Response System	To generate Respiratory Syncytial Virus (RSV) genomic surveillance data from low- and middle-income countries leveraging the RSV Global Influenza Surveillance and Response System (GISRS) platform.						\$2,084,731.00
				Bill & Melinda Gates Foundation					
4/3/2015	12/31/2022	Sickle Cell Data Collection	To build the framework for collecting data about individuals in the United States with sickle cell disease in order to monitor their health outcomes, evaluate current systems of care and inform the development of a comprehensive care model to meet the needs of these individuals throughout their life.						\$3,595,636.00
				Biogen MA Inc.					
				Bioverativ Inc.					
				Doris Duke Charitable Foundation, Inc.					
				Global Blood Therapeutics, Inc.					
				Novartis US Foundation					
				Pfizer Inc.					
				Sanofi Genzyme					
6/18/2020	7/31/2023	Southern Alliance: Addressing COVID-19 Among African American Communities	To build the capacity of community-based organizations and institutions engaging in mobilizing African American communities at high risk for COVID-19 morbidity and mortality to adopt and sustain COVID-19 preventative and community mitigation strategies.						\$4,600,000.00
				Centers for Disease Control and Prevention					
9/1/2021	7/31/2023	Stigma Monitoring and Response System for Public Health Crises	To refine and implement the use of community-level crisis monitoring and response system (CMRS) for public health crises to apply during the COVID-19 pandemic and future crises in order to both identify racialized stigma signals that create barriers to recommended mitigation practices (e.g., vaccine uptake), as well as respond to them in real time.						\$7,500,000.00
				Centers for Disease Control and Prevention*	\$500,000.00				

						CDC Fiscal Year 2022			
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)		
4/1/2021	7/31/2023	Strengthened Community Partnerships for Holistic Approaches to Interoperability	To help lay the foundation needed to leverage national data exchange and ensure that transport standards and requirements add value to data providers, public health partners and ultimately the community.				\$7,200,000.00		
				Centers for Disease Control and Prevention*	\$3,600,000.00				
6/1/2021	7/31/2023	Strengthening Capacity of Community-Based Organizations for COVID-19 Response	To build the capacity of the public health workforce in state, territorial, local and tribal health departments through recruitment, hiring and assignment of field staff to work directly in the jurisdictions.				\$200,000,000.00		
				Centers for Disease Control and Prevention					
9/1/2017	9/30/2024	Strengthening Global Cardiovascular Health Systems	To promote technical exchange through establishment and improvement of public health surveillance systems, laboratory testing and training to enhance public health initiatives related to cardiovascular disease.				\$7,363,979.00		
				International Union Against Tuberculosis and Lung Disease Vital Strategies					
10/1/2019	9/30/2024	Strengthening Global Cardiovascular Health Systems Phase II	To reduce the burden of cardiovascular diseases in low- and middle-income countries by providing technical expertise, facilitating technical packages, building Field Epidemiology Training Program (FETP) workforce capacity, establishing a consortium of experts and collaborating with governmental agencies and partners.				\$4,503,000.00		
				Bloomberg Philanthropies					
9/1/2022	7/31/2023	Strengthening Partnerships to Address Post-COVID Conditions	To engage and collaborate with patient advocacy and community-based organizations to coordinate efforts to raise awareness of post-COVID conditions, ME/CFS, and other infection-initiated chronic illnesses and to develop the tools and relationships to increase responsiveness of systems and practitioners to the medical and social support needs of individuals affected by these conditions, to advance their recovery.				\$250,000.00		
				Centers for Disease Control and Prevention*	\$250,000.00				
8/27/2022	7/31/2025	Support for Inactivated Rotavirus Vaccine	To support chemistry, manufacturing and control (CMC) and preclinical development of an inactivated rotavirus vaccine.				\$1,277,615.00		
				Bill & Melinda Gates Foundation*	\$1,277,615.00				
9/1/2022	7/31/2023	Support for the Public Health AmeriCorps Program: Education Award	To increase awareness about the Public Health AmeriCorps program and support efforts to become future grantee organizations.				\$3,600,000.00		
				Centers for Disease Control and Prevention*	\$3,600,000.00				
4/16/2021	10/31/2023	Support for Malaria Control and Elimination in Tanzania	To establish local molecular, genetics and genomic laboratory and analytical capacity to support malaria surveillance in Tanzania.				\$318,700.00		
				National Institute for Medical Research (Tanzania)					
8/1/2020	7/31/2023	Supporting Community Organizations to Strengthen Vaccine Confidence	To fund up to six community-based organizations to develop and implement effective health communication and community engagement strategies to increase vaccine confidence and acceptance among groups at risk for outbreaks of vaccine-preventable diseases (VPDs).				\$600,000.00		
				Centers for Disease Control and Prevention*	\$300,000.00
