

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)
1	12/1/2012	3/31/2017	Acrylamide Exposure and Risk of Endometrial and Ovarian Cancer To assess exposure to acrylamide in a subset of the European Prospective Investigation into Cancer and Nutrition (EPIC) study cohort and assess possible associations between acrylamide exposure and endometrial and ovarian cancers. Current/Previous Funding Partner(s): Bellvitge Biomedical Research Institute			\$130,559.00
2	8/1/2002	6/30/2016	Active Living Research To encourage transdisciplinary collaboration and build a research field that identifies environmental factors and public and private policies that have the potential to influence physical activity and sedentary behavior throughout the population of the United States. Current/Previous Funding Partner(s): San Diego State University Research Foundation			\$192,937.00
3	12/1/2011	1/31/2017	Adaptation of Evidence-Based Interventions in Violence Prevention To help CDC learn how evidence-based interventions to prevent violence currently are being implemented and adapted in the field and how to maximize adoption and use of evidence-based interventions successfully over time. Current/Previous Funding Partner(s): Robert Wood Johnson Foundation			\$1,701,264.00
4	12/1/2013	on-going	Addressing Health Disparities in the United States and Brazil To examine racial disparities in health and develop a joint action plan between the United States and Brazil. The partnership facilitates cross-country collaboration by examining, disseminating and applying innovative approaches to reducing or eliminating racial discrimination in health for black populations. Current/Previous Funding Partner(s): W.K. Kellogg Foundation			\$150,000.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash (During CDC Fiscal Year 2015)	Cumulative Funding (All Years)
5	6/1/2015	12/31/2016	Adipose Deposition of Environmental Toxins To determine which of the selected environmental chemicals detected in blood in the NHANES survey by CDC can be detected and measured in the serum and urine tissue, as well as the change over time in the detected environmental toxin levels in the blood and urine of patients who undergo bariatric surgery and experience significant weight loss.	Johns Hopkins University	\$33,995.63	\$33,995.63
6	2/1/2011	7/31/2016	Aetiology of Neonatal Infection in South Asia To characterize the pathogens that cause infections in young infants in developing countries - particularly Bangladesh, Pakistan and India - including a description of incidence, antimicrobial susceptibility and strain properties. Current/Previous Funding Partner(s): Dhaka Shishu Hospital (International Centre for Diarrhoeal Disease Research)			\$1,734,048.00
7	8/1/2014	5/31/2015	African Network for Influenza Surveillance Meeting To provide a forum for African Network for Influenza Surveillance and Epidemiology members to present current influenza research, exchange information and plan upcoming influenza activities as an African network. Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation			\$95,134.00
8	9/1/2015	on-going	AIDS and Kaposi's Sarcoma in Uganda To perform Human Herpesvirus-8 (HHV-8) diagnostics on specimens from a UCSF study on antiretroviral therapy for patients with AIDS and Kaposi's sarcoma in Uganda.	University of California, San Francisco	\$30,000.00	\$30,000.00
9	6/1/2014	12/31/2016	Alternative Sanitation in Protracted Emergencies To determine the safety and acceptability of urine-diversion toilets (UDTs) in refugee camps in Ethiopia in order to provide guidance on their use in humanitarian crises. By determining the environmental conditions necessary for maximum pathogen removal in a real setting, this will help improve existing and future UDT programs. Current/Previous Funding Partner(s): Enhancing Learning and Research for Humanitarian Assistance			\$264,729.67

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)
10	8/1/2014	7/31/2016	Analysis of the Global Burden of Norovirus To implement a landscape analysis and hold a consultative meeting focused on gathering current data on the global burden of norovirus disease and the epidemiology of norovirus infections. The outcome will include a white paper on the current burden of norovirus and vaccine prospects Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation			\$214,935.00
11	10/1/2014	12/31/2016	Antimicrobial Chemicals in Allergic Disease To investigate whether exposure to the antimicrobial phenols (e.g., triclosan and parabens) increases the risk of developing allergen sensitization and clinical allergic disease via inducing dysbiosis of the human microbiota.	Partners HealthCare System, Inc. (Harvard University)	\$164,268.00	\$164,268.00
12	7/1/2011	11/30/2016	Antimicrobial Stewardship Programs To demonstrate the efficacy of an anti-microbial stewardship project in long-term care facilities using the syndromic approach targeting urinary tract infections. Current/Previous Funding Partner(s): Merck & Co., Inc.			\$71,043.00
13	5/1/2015	5/31/2020	Antimicrobials: The Microbiome and Gene Expression To perform interventional trials on the use of triclosan and non-triclosan containing products and determine the effects of triclosan use on the microbiome and on gene expression.	Partners HealthCare System, Inc. (Harvard University)	\$23,244.80	\$23,244.80
14	7/1/2015	9/30/2016	Assessment of Nanoparticle Toxicity To systematically study the mechanisms of in vivo breakdown and processing of inhaled nanomaterials.	University of Kentucky	\$10,000.00	\$10,000.00
15	3/1/2011	3/1/2016	Asthma and Secondhand Smoking To quantify exposure to secondhand smoke by measuring levels of nicotine metabolites and then assess the relationship between secondhand smoke exposure and the development of asthma and allergy in children. Current/Previous Funding Partner(s): Simon Fraser University			\$220,800.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
16	6/1/2006	on-going	Bed Nets for Children To prevent the spread of malaria by distributing insecticide-treated bed nets to pregnant women and children in Africa who are most at risk for contracting and dying from malaria. Current/Previous Funding Partner(s): Clarence E. Heller Charitable Foundation Various Individual and Organizational Contributors	Various Individual and Organizational Contributors \$10,165.76	\$143,602.48
17	11/1/2012	4/30/2017	Biomarker Detection of Cervical Cancer To help CDC participate in research to evaluate the use of the magnetic microfluidic chip to improve detection of cervical cancer. Current/Previous Funding Partner(s): The University of Georgia		\$123,099.30
18	9/1/2013	3/31/2016	Biomarkers of Infertility To study biomarkers of infertility in 750 women trying to conceive over 12 months. CDC will perform a sample analysis and advise on the study design, sample collection and data analyses, measuring FSH and the estrogen metabolite, estrone 3-glucuronide, for standardized pregnancy determination. Current/Previous Funding Partner(s): University of North Carolina at Chapel Hill	University of North Carolina at Chapel Hill \$7,722.00	\$14,871.00
19	12/1/2009	8/30/2016	Birth-cohort Evaluation to Advance Screening and Testing for Hepatitis C (BEST-C) To support Birth-Cohort Evaluation to Advance Screening and Testing for Hepatitis C (BEST-C), a multi-year study that will evaluate the effectiveness of screening all persons born between 1945 and 1964 for HCV in order to increase the proportion of people who are aware of their HCV status. Current/Previous Funding Partner(s): AbbVie Inc. Genentech, Inc. Johnson & Johnson Pharmaceutical Services, LLC Merck Sharp & Dohme Corp. Vertex Pharmaceuticals, Incorporated		\$3,928,000.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash (During CDC Fiscal Year 2015)	Cumulative Funding (All Years)
20	8/1/2015	3/31/2016	Bisphenol A Exposure and Gestational Diabetes To measure urinary concentrations of environmental phenols to assess whether exposure to environmental chemicals such as Bisphenol A is associated with an increased risk of Gestational Diabetes.	University of Cincinnati	\$17,300.40	\$17,300.40
21	7/1/2013	on-going	BPA Exposure and Risk for Obesity and Diabetes To monitor the prospective association of bisphenol A (BPA) exposure with risk for obesity and diabetes. Additionally, the role of epigenetic factors in mediating the association between BPA exposure and risk for obesity and diabetes will be investigated. A pilot study will use preliminary data from 170 samples collected for the Emory Twins Study between 2001 and 2010. Current/Previous Funding Partner(s): Tulane University University of Oklahoma Health Sciences Center			\$58,890.00
22	5/1/2013	12/31/2015	Building Networks for Health Equity The Breakthrough Initiative is a collaborative effort between the National Association of County and City Health Officials (NACCHO), the Healthy Heartlands Coalition of faith-based community organizations and CDC's Division of Violence Prevention. The Breakthrough Initiative is designed to intervene on inequities in health and safety through the development of networks and collaborative actions between local public health agencies and faith-based community organizations. Current/Previous Funding Partner(s): W.K. Kellogg Foundation			\$200,000.02
23	8/1/2014	8/30/2015	Cancer: Survivors in Focus Traveling Exhibition support the photo exhibition, Cancer: Survivors in Focus, a moving tribute to people who have survived cancer. The exhibition, hosted at Pfizer Inc's New York headquarters, tells survivors' stories through the work of photographers who examine cancer survivorship in different contexts: Carolyn Taylor's Without Borders: The Global Face of Cancer and John Kaplan's Not as I Pictured. Current/Previous Funding Partner(s): Pfizer Inc			\$12,180.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
24	3/1/2012	6/30/2016	Candidemia Surveillance and C. Glabrata To help CDC advance the study of the effects of certain genetic mutations of candida glabrata (C. glabrata) on the effectiveness of antifungal treatments. Candida species are the third leading cause of healthcare-associated bloodstream infections, and CDC is the only entity in the U.S. conducting active population-based surveillance for these infections. Current/Previous Funding Partner(s): Astellas Pharma US, Inc.		\$15,720.00
25	7/17/2007	7/31/2016	CDC Experience Legacy Project To enhance development of health professionals by providing them tools to expand their competency in community and population-based health. Current/Previous Funding Partner(s): Pfizer Inc		\$2,840,598.00
26	5/1/2007	12/30/2015	Central Asia Blood System Evaluation To evaluate the blood donor recruitment system, the quality of laboratory screening procedures for blood donations, and the current guidelines for the clinical use of blood components in four countries in central Asia. To identify gaps in blood services, make recommendations to address those gaps, and then implement and evaluate proposed interventions in the problem areas. Current/Previous Funding Partner(s): International Bank for Reconstruction and Development		\$85,000.00
27	10/9/2013	12/31/2016	CHAMACOS Environmental Study To examine the association of exposure to phthalates with health outcomes in child development using samples collected from participants of the Center for the Health Assessment of Mothers and Children of Salinas (CHAMACOS) study. CDC's Organic Analytical Toxicology Branch will measure the urinary concentrations of phthalate metabolites in urine collected from CHAMACOS participants. Approximately 700 samples will be analyzed for phthalate metabolites. Current/Previous Funding Partner(s): University of California, Berkeley		\$76,830.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)
28	12/1/2011	10/30/2014	CHeCS Cost-effectiveness Modeling Fellow To increase CDC's capacity to better understand the cost-effectiveness of the different screening, treatment and care options that are now available for persons living with viral hepatitis. Current/Previous Funding Partner(s): Bristol-Myers Squibb Company			\$60,000.00
29	2/1/2012	12/31/2016	Child Development and Exposure to Phthalates and BPA To asses the effects of exposure to phthalates and bisphenol A (BPA) on the fetal and pubertal development of children. Current/Previous Funding Partner(s): Partners Healthcare System, Inc (Harvard Medical School) University of Illinois at Urbana-Champaign	University of Illinois at Urbana-Champaign	\$21,655.05	\$125,429.28
30	11/5/2013	9/30/2016	Childhood Autism from Genetics and the Environment To compare the cognitive and adaptive functions of children with autism to normally developing and mentally retarded children and to evaluate the connection between high gestational folic acid levels and reduced risk for autism. CDC's Division of Laboratory Sciences Nutritional Biomarkers Branch will measure 851 newborn dried blood spot samples from the State of California's newborn screening bank in the "CHARGE" study, Childhood Autism Risks from Genetics and the Environment. Current/Previous Funding Partner(s): University of California, Davis	University of California, Davis	\$47.84	\$40,759.68
31	6/1/2013	1/31/2016	China Tobacco Questions for Surveys (TQS) Cities Project To conduct stand-alone Tobacco Questions for Surveys (TQS) in three Chinese cities. Current/Previous Funding Partner(s): Emory University			\$113,000.00
32	8/1/2015	7/30/2020	Chronic Hepatitis B Virus Infection in Tanzania To implement and evaluate the feasibility of a care and treatment model for persons infected with chronic hepatitis B virus in resource-limited settings.	Gilead Sciences, Inc.	\$439,252.74	\$439,252.74

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)
33	1/1/2014	8/31/2016	Chronic Kidney Disease in Central American Workers To investigate potential occupational causes of Chronic Kidney Disease in Central American countries. Current/Previous Funding Partner(s): Association of Sugar Producers in Honduras Comité Nacional de Productores de Azúcar Liga Agrícola Ind Cana de Azucar Los Azucareros del Istmo Centroamericano Sugar Association of Guatemala Sugar Association of El Salvador			\$1,050,000.00
34	2/1/2009	9/30/2016	Chronic Viral Hepatitis B and C Cohort Study (CHeCS) To establish the first comprehensive U.S. longitudinal observational cohort of 15,000 or more patients with chronic viral hepatitis B and C in order to improve understanding of chronic viral hepatitis and the impact of screening, care and treatment recommendations. Current/Previous Funding Partner(s): Abbott Laboratories AbbVie Inc. Bristol-Myers Squibb Company Genentech, Inc. Gilead Sciences, Inc. Janssen Global Services, LLC Johnson & Johnson Pharmaceutical Services, LLC Vertex Pharmaceuticals, Incorporated	AbbVie Inc.	\$500,000.00	\$10,350,000.00
35	3/1/2014	11/30/2017	Clinical Trials Unit for HIV/AIDS and TB Research To facilitate formation of a Clinical Trials Unit for HIV/AIDS and tuberculosis research to advance therapy and prevention. If the interventions in the clinical trials are determined safe and effective, they will add to the options available to prevent and control these diseases of global significance. Current/Previous Funding Partner(s): Emory University	Emory University	\$265,202.00	\$530,404.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash (During CDC Fiscal Year 2015)	Cumulative Funding (All Years)
36	4/1/2013	12/30/2015	Communicating the Value of Public Health To increase private-sector understanding of CDC's role in population-based health and to build public-private partnerships that advance public health priorities. This funding will support an initiative to highlight the value of CDC as the nation's leading health protection agency. The desired goal is greater private-sector appreciation for CDC and public health. Current/Previous Funding Partner(s): The Robert W. Woodruff Foundation, Inc.			\$1,000,000.00
37	10/1/2014	12/23/2014	Composites and Urinary Bisphenol A Study To investigate whether children who have had dental composite restorative treatments have greater urinary bisphenol A (BPA) concentrations following restoration placement, compared to children who have had dental amalgam treatment.	New England Research Institutes, Inc.	\$63,921.00	\$63,921.00
38	1/1/2010	on-going	Consumer Education and Assisted Reproductive Technology To create educational videos to help infertility patients make informed treatment decisions. Current/Previous Funding Partner(s): Aetna, Inc.			\$23,608.00
39	1/1/2015	7/31/2016	Controlling Mosquito Vectors of Malaria To develop data that will contribute to an assessment of whether transgenic mosquitoes could be effectively and safely deployed to control natural populations of malaria vectors.	Imperial College London	\$515,585.00	\$515,585.00
40	9/1/2011	5/31/2016	Controlling Viral Foodborne Disease To help CDC collaborate with the U.S. Department of Agriculture and the National Institute of Food and Agriculture to create an integrated, multi-disciplinary approach to developing improved tools, skills and capacity to study foodborne viruses, using these to systematically identify risk factors and develop risk management strategies to reduce contamination in pre- and post-harvest environments. Current/Previous Funding Partner(s): North Carolina State University			\$2,014,124.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
41	10/1/2010	10/31/2016	Crimean-Congo Hemorrhagic Fever Study To research the nairovirus, Crimean-Congo hemorrhagic fever, a tick-borne viral disease, especially common in East and West Africa. With mortality rates as high as 80 percent and with no FDA approved vaccines or therapeutics, Crimean-Congo hemorrhagic fever is considered a dangerous pathogen and a serious bioterrorism threat. The project will expand the knowledge of the ovarian tumor protease domain of the nairovirus to inform control measures and vaccine development. Current/Previous Funding Partner(s): European Commission Smittskyddsinstitutet The University of Georgia	The University of Georgia \$97,195.23	\$343,315.82
42	11/1/2014	3/30/2017	Cryptococcal Meningitis Screening in South Africa To provide technical assistance to the monitoring and evaluation of a cryptococcal screening program in partnership with the South African government. Cryptococcal meningitis is a common infection and a leading cause of death among individuals with HIV/AIDS.	Pfizer Inc \$582,320.00	\$582,320.00
43	4/1/2015	8/31/2016	Data Collection System for Sickle Cell Disease To build the framework for collecting data about individuals in the United States with sickle cell disease in order to monitor their health outcomes, evaluate current systems of care, and inform the development of a comprehensive care model to meet the needs of these individuals throughout their life.	Biogen Idec \$226,500.00 Pfizer Inc \$350,000.00	\$576,500.00
44	3/1/2015	3/31/2017	Data for Health To assist 20 low- and middle-income countries across Latin America, Asia and Africa in strengthening their public health data systems and data use for critical policy-making decisions.	Bloomberg Philanthropies \$16,705,000.00	\$16,705,000.00
45	10/7/2013	12/31/2016	Data to Action and Monitoring Tobacco Use in Asia Work with other Bloomberg Initiative partners to reduce global tobacco use through surveillance and monitoring activities. Current/Previous Funding Partner(s): Bloomberg Philanthropies		\$1,750,000.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. 46	10/1/2003	on-going	David J. Sencer CDC Museum		
		The David J. Sencer CDC Museum (formerly known as the Global Health Odyssey) serves as CDC's gateway to the public, and is dedicated to comprehensive scientific learning and outreach. Composed of permanent exhibits representing the breadth of CDC's work and history, topical changing exhibits, a theater and a classroom, this facility serves to educate all who visit about public health and the important work of CDC, with a special emphasis on curriculum-based educational workshops and camps targeting middle- and high-school students.	Various Individual and Organizational Contributors	\$1,200.50	\$231,011.50
		Current/Previous Funding Partner(s): Accenture Association of State & Territorial CDC Federal Credit Union Grantmakers In Health Pfizer Inc The Florence C. & Harry L. English Memorial Fund The Harriet McDaniel Marshall Trust The John and Mary Franklin Foundation The Morris Family Foundation, Inc. The Thomas Guy Woolford Charitable Trust The Walter H. & Marjory M. Rich Memorial Fund Vestergaard Frandsen SA Various Individual and Organizational Contributors			
47	7/1/2002	on-going	David J. Sencer EIS Conference Scholarship Fund		
		To provide travel scholarships to qualified potential applicants to the EIS program to attend the annual EIS Conference in Atlanta, Georgia.	Various Individual and Organizational Contributors	\$3,400.00	\$47,644.42
		Current/Previous Funding Partner(s): Various Individual and Organizational Contributors			
48	11/26/2007	11/30/2014	Developing a Workplace Health Index		
		To develop a collection of tools, guidelines and resources designed to give employers a self-guided, step-by-step approach to creating, improving or enhancing their workplace health activities.			\$199,999.00
		Current/Previous Funding Partner(s): American Association of Retired Persons			

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
49	8/1/2009	8/30/2016	Development of Inactivated Polio Vaccine Strains To develop a genetically stable inactivated poliovirus vaccine. Current/Previous Funding Partner(s): World Health Organization		\$500,000.00
50	2/24/2014	3/30/2015	Dietary Intervention in Pregnancy To examine whether a dietary intervention can reduce urinary concentrations of phthalate metabolites in pregnant women. This study will measure samples and investigate challenges to adopting changes in diet. Current/Previous Funding Partner(s): University of Rochester		\$4,083.00
51	10/1/2013	5/31/2016	Dual Compartment Microbicide to Prevent HIV Transmission To support the development of a safe and effective dual compartment microbicide to be applied either vaginally or rectally as pre-exposure prophylaxis (PrEP) against the transmission of HIV. Current/Previous Funding Partner(s): ImQuest BioSciences		\$174,643.00
52	11/1/2014	5/31/2015	Early Autism Risk Longitudinal Study To estimate and characterize the risk for autism from polybrominated diphenyl ethers (PBDEs) using data from the Early Autism Risk Longitudinal Study.	University of California, Berkeley	\$75,611.49
53	5/1/2013	8/31/2016	Early Childhood Inequities Awareness Campaign To support the dissemination of The Raising of America, a documentary series and multimedia initiative that reframes the way we look at early child health and development. This two-year national public engagement and education initiative aims to prevent child maltreatment and achieve health equity by improving social and economic conditions for all children and their families. Current/Previous Funding Partner(s): Doris Duke Charitable Foundation		\$150,000.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)
54	10/1/2008	1/31/2016	Early Childhood Mortality Collaboration To help CDC's Newborn Screening Branch collaborate with California's newborn screening program through the ongoing Early Childhood Mortality Collaborative Project. Current/Previous Funding Partner(s): The Evanosky Foundation			\$12,000.00
55	8/1/2015	4/30/2016	Effects of Carcinogens from High Fat Diets The purpose of this study is to investigate in a mouse model the potential effect of exposure to BP-3 on susceptibility to mammary tumor development and interaction with a diet high in animal fat.	Michigan State University	\$6,973.44	\$6,973.44
56	5/1/2015	5/31/2020	Effects of Perfluoroalkyls on Stroke and Mortality To investigate the association between exposure to polyfluorinated chemicals (PFCs) and the risk of stroke, as an ancillary project of the Reasons for Geographic and Racial Differences in Stroke (REGARDS) study.	West Virginia University	\$380,700.00	\$380,700.00
57	12/1/2014	12/31/2016	Electronic Health Records For Hepatitis C Testing To develop clinical quality improvement infrastructure for Hepatitis C screening and referral to treatment.	Gilead Sciences, Inc.	\$116,000.00	\$116,000.00
58	7/1/2010	1/31/2016	Emergency Obstetric Care in Tanzania To improve access to quality emergency obstetric care and reduce maternal deaths in four pilot regions of Tanzania. Current/Previous Funding Partner(s): Bloomberg Philanthropies			\$2,238,905.00
59	2/1/2011	10/1/2016	Emerging Infectious Diseases in China To enable a Pfizer Global health fellow to work alongside CDC scientist on assignment in China to improve prevention, detection and control of emerging infectious diseases. Current/Previous Funding Partner(s): Pfizer Inc.			\$99,858.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
60	1/1/2011	on-going	Emerging Infectious Diseases in China (China/Pfizer Global Health Fellows) To enable a Pfizer Global Health Fellow to work alongside CDC scientists on assignment in China to improve prevention, detection and control of emerging infectious diseases. Current/Previous Funding Partner(s): Pfizer Inc.		\$44,963.00
61	5/1/2008	on-going	Endocrine Disruptors and the Male Reproductive System To study the influence of prenatal exposure to phthalates and bisphenol A (BPA) on the occurrence of genital abnormalities, specifically cryptorchidism and hypospadias, in the French general population. Current/Previous Funding Partner(s): INSERM		\$166,252.98
62	9/1/2015	11/30/2017	Endocrine Disruptors Exposure and Prenatal Risk To examine whether maternal exposure to endocrine disrupting chemicals such as phenols and phthalates affect the maternal ribonucleic acid profile as well as ribonucleic acid, proteins and hormonal levels. The study will determine whether in-utero and early life outcomes differ between male and female twins in the same twin pair. Current/Previous Funding Partner(s): The Chaim Sheba Medical Center (Funding in foreign currency; will be counted when it arrives)		
63	10/1/2010	1/31/2017	Environmental Exposure and ALS To measure the levels of gamma-tocopherols, 25-hydroxyvitamine, pesticides and blood lead and study their association with the development of Amyotrophic Lateral Sclerosis (ALS or Lou Gehrig's disease). Current/Previous Funding Partner(s): Emory University		\$34,138.00
64	3/1/2015	9/30/2016	Evaluating Risks in Modern Firefighting To collaborate with the Illinois Fire Service Institute (IFSI) to conduct a study to assess firefighters' cardiovascular and carcinogenic risks during modern firefighting. IFSI will oversee each training scenario and collect a variety of measurements to assess firefighters' heat stress, physical exertion and physiological strain. CDC's NIOSH will conduct external and internal exposure monitoring, assess firefighter gear contamination, conduct data analysis and disseminate the results.	University of Illinois at Urbana-Champaign	\$165,000.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash (During CDC Fiscal Year 2015)	Cumulative Funding (All Years)
65	1/1/2007	on-going	Evaluating SafeWater Interventions To support CDC's work with international partners to develop and evaluate new tools and strategies to improve access to safe drinking water at a household level. Current/Previous Funding Partner(s): The Clorox Company The Greater Cincinnati Foundation Procter & Gamble Company Vestergaard Frandsen SA			\$1,439,230.68
66	1/1/2015	12/31/2016	Evaluation of Cerus INTERCEPT System for Ebola To evaluate the safety of Cerus Corporation's Intercept Platform's ability to inactivate the Ebola virus in human plasma.	Bill & Melinda Gates Foundation	\$94,611.00	\$94,611.00
67	7/1/2007	7/31/2017	Evaluation of Malaria Specimen Bank To analyze blood samples to determine what species of human malaria parasites are present in the specimens as part of an evaluation of a global malaria specimen bank. Current/Previous Funding Partner(s): Foundation for Innovative New Diagnostics			\$2,139,617.40
68	2/1/2012	7/31/2017	Evaluation of Program Impact through PRAMS To facilitate a collaboration between CDC and the W.K. Kellogg Foundation to assess the potential impact of Kellogg-supported interventions through the use of CDC's Pregnancy Risk Assessment Monitoring System (PRAMS). PRAMS collects state-specific, population-based data on maternal attitudes and experiences before, during, and shortly after pregnancy. Current/Previous Funding Partner(s): W.K. Kellogg Foundation			\$2,474,907.00

69	4/1/2013	on-going	Evaluation of UPS's Road Code Teen Driving Program To conduct a program analysis and evaluation of United Parcel Service's (UPS) Road Code, an interactive program that brings UPS's safe driving techniques and methods to teenage drivers. CDC will conduct an analysis of the UPS Road Code curriculum, provide recommendations and resources based on the most recent and best available science and provide in-depth consultation on and assistance with the evaluation of the UPS Road Code program. Current/Previous Funding Partner(s): The UPS Foundation, Inc.	The UPS Foundation, Inc.	\$103,565.00	\$203,565.00
70	6/1/2014	2/29/2016	Expanding Community Participation in SaludBoricua To promote community participation in SaludBoricua, the Puerto Rico participatory surveillance program for acute febrile illnesses, which include dengue, influenza, leptospirosis and chikungunya. A mobile app will be developed to capture data and a media campaign launched to encourage participation. Current/Previous Funding Partner(s): Skoll Global Threats Fund			\$91,000.00
71	11/1/2014	11/30/2016	Expanding the Immunization Data System in Nigeria To overhaul the immunization data system at the National Health Care Development Agency of Nigeria. Expanding the information system will improve the accountability of the routine immunization program and provide the data for strategic planning and program implementation in Nigeria.	Bill & Melinda Gates Foundation	\$6,303,662.00	\$6,303,662.00
72	7/1/2015	12/31/2016	Exposure to Antibacterial Compounds To examine whether exposure to certain antibacterial chemicals is implicated in allergic and respiratory diseases through alteration of the human microbiome.	University of Bergen	\$76,842.61	\$76,842.61
73	1/1/2012	12/30/2016	Exposure to Endocrine Disruptors and Breast Cancer Risk To measure phthalate metabolites and phenols to help determine their potential role in breast cancer development. Current/Previous Funding Partner(s): Mount Sinai School of Medicine			\$143,276.00

		Hospira, Inc. Mallinckrodt Group Inc. MEDRAD, INC. Nebraska Medical Association Nevada State Medical Association Novo Nordisk Inc. Premier, Inc.			
111	11/1/2013	6/30/2016	Improving Data for Global Cervical Cancer Screening and Treatment Programs		
		To scale up and improve cervical cancer screening and treatment programs globally through a consortium-based approach-Improving Data for Global Cervical Cancer Screening and Treatment Programs. Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation			\$3,696,121.00
112	7/1/2009	9/30/2018	Improving Health Care Provider Performance in Developing Countries		
		To generate evidence-based recommendations via a systematic literature review on how to improve health care providers' performance in low-and middle-income countries. Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation	Bill & Melinda Gates Foundation	\$2,312,205.00	\$3,125,903.00
113	7/1/2013	on-going	Improving Health Outcomes of LGBT Youth		
		To address critical gaps in knowledge about protective factors and interventions that promote positive health outcomes among lesbian, gay, bisexual and transgender (LGBT) youth, and to possibly improve academic and social outcomes in this population. This project will result in the development and dissemination of publications and other resources that enhance the scientific and programmatic response to HIV, STDs and other sexual health issues among LGBT youth. Current/Previous Funding Partner(s): Arcus Foundation			\$320,280.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)
114	9/1/2014	12/31/2016	Improving Hepatitis E Outbreak Control To support a collaboration between CDC, the London School of Hygiene & Tropical Medicine and the United Nations Human Rights Council to partner on a joint proposal to the Research in Health for Humanitarian Crises to improve Hepatitis E outbreak control efforts among emergency affected populations.	Enhancing Learning and Research for Humanitarian Assistance	\$68,777.66	\$68,777.66
115	3/1/2015	2/28/2017	Improving Population Health in California To increase private-sector understanding of the role of CDC in population-based health and to build partnerships that advance public health in California and nationally.	The California Endowment	\$500,000.00	\$500,000.00
116	9/1/2013	12/31/2016	Improving Public Health Management for Action (IMPACT) To improve health outcomes in low-resource countries, in the areas of polio and other vaccine-preventable diseases, enteric diseases and maternal and child health, through the development of a training program for mid-level public health managers in partnership with scientists and technical experts. Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation			\$349,211.00
117	7/1/2011	1/31/2016	Improving the Measles Vaccine To provide laboratory support for the development of a more thermostable measles vaccine. Current/Previous Funding Partner(s): Serum Institute of India Ltd. Universal Stabilization Technologies, Inc.	Universal Stabilization Technologies, Inc.	\$10,000.00	\$48,200.00
118	10/1/2013	on-going	Incinerators Biomonitoring Study To assess the relationship between modeled area level ambient dioxin exposure and individual level breast milk dioxin exposure in residents living near two municipal solid waste incinerators, Marchwood in Hampshire and Stockton-on-Tees in Cleveland, in England. A total of 100 human milk specimens will be analyzed for PCDDs/PCDFs/cPCBs. The study results will additionally help interpret the results of the national epidemiological study on municipal solid waste incinerators and birth outcomes being conducted by the Small Area Health Statistics Unit at Imperial College London. Current/Previous Funding Partner(s): Imperial College London			\$55,900.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)	
119	7/1/2014	12/31/2017	Infant Feeding, Early Development and Isoflavones To measure approximately 50 infant and toddler urine specimens for phytoestrogens as part of an observational, longitudinal, prospective cohort study with the Children's Hospital of Philadelphia. The study will investigate hormonal endpoints during infancy and toddlerhood in relation to feeding by breast milk, cow-milk based formula or soy-protein based formula. Current/Previous Funding Partner(s): National Institute of Environmental Health Sciences			\$7,035.98	
120	10/1/2014	9/30/2016	Infant Feeding, Early Development and Phenolics To investigate the early life estrogen-dependent endocrine disruption in relation to exposure to triclosan, methyl paraben, propyl paraben and other personal care product compounds. Current/Previous Funding Partner(s): National Institute of Environmental Health Sciences Social Scientific Systems, Inc.			\$45,125.21	
121	9/1/2015	8/31/2016	Integrated Rotavirus Vaccine Development Plan To implement a robust product development program for an integrated, inactivated rotavirus vaccine in low-income countries.	Bill & Melinda Gates Foundation	\$499,628.00	\$499,628.00	
122	12/1/2013	12/31/2016	Intervention Study in Guatemala To design and execute an intervention study to address severe morbidity due to diarrhea and intestinal parasites in children under 5 in Guatemala. Current/Previous Funding Partner(s): Global Health Partnership Initiative	Global Health Partnership Initiative	\$5,120.00	\$37,120.00	\$78,745.00
123	11/5/2007	8/17/2015	Intimate Partner Violence Prevention To help CDC's Division of Violence Prevention award grants to state domestic violence coalitions to help them incorporate primary prevention strategies into their overall domestic violence programming. Current/Previous Funding Partner(s): Robert Wood Johnson Foundation			\$3,186,133.00	

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
124	12/1/2010	5/31/2015	Invasive MRSA Among Recent Acute Patients To identify risk factors for developing invasive MRSA infection after being discharged from an acute care hospital and to identify subset pf patients who may benefit from targeted interventions. Current/Previous Funding Partner(s): Astellas Pharma US, Inc. Stiefel Laboratories, Inc.		\$306,750.00
125	3/1/2015	5/31/2016	Investigating Chlorine Dioxide as Disinfectant To evaluate the use of chlorine dioxide as a disinfectant in recreational water venues.	National Swimming Pool Foundation \$37,565.00	\$37,565.00
126	1/1/2014	8/31/2016	Investigating Chronic Kidney Disease in Nicaragua To facilitate collaboration and investigate the potential of non-occupational causes of chronic kidney disease in Nicaragua in connection with the Chronic Kidney Disease Research initiative in Central America. Current/Previous Funding Partner(s): Comité Nacional de Productores de Azúcar		\$674,328.00
127	11/1/2009	on-going	KSHV in Sub-Saharan Africa To test blood and saliva samples from Uganda, Zimbabwe and South Africa for Kaposi sarcoma-associated herpesvirus (KSHV) antibodies and DNA; to measure KSHV seroprevalence and seroincidence; to analyze determinants of KSHV infection; and to examine the response of KSHV infection to antiretroviral therapy. Current/Previous Funding Partner(s): University of California, San Francisco		\$127,355.00
128	10/1/2013	11/30/2016	Laboratory Surveillance for Factor XIII Deficiency To provide support for Factor XIII testing to accurately diagnose patients in the United States in order to enhance the surveillance of rare bleeding disorders. Current/Previous Funding Partner(s): Novo Nordisk Inc.		\$152,975.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
129	4/1/2013	12/31/2016	Labs for Life Fellowship To support CDC's Center for Global Health on the five-year public-private partnership between BD and PEPFAR focused on improving overall laboratory systems and services in Uganda, Ethiopia, Kenya, Mozambique and India, countries severely affected by HIV/AIDS and tuberculosis. Current/Previous Funding Partner(s): BD	BD \$100,000.00	\$240,459.00
130	9/1/2013	3/31/2017	Law and Policy in Healthy People 2020 To develop progress reports linked to Healthy People 2020 (a science-based, 10-year national objective for improving the health of Americans) to demonstrate the value of legal and policy interventions in improving Americans' health. Current/Previous Funding Partner(s): Robert Wood Johnson Foundation		\$1,629,622.00
131	5/1/2014	7/30/2016	Leveraging Data for Hepatitis C Surveillance To strengthen surveillance for hepatitis C (HCV) infection by using commercial lab data to obtain, analyze and disseminate data on HCV testing. This project will complete an analysis of non-invasive markers for liver fibrosis in the dataset to estimate the stage of liver disease for persons newly positive for HCV. Current/Previous Funding Partner(s): AbbVie Inc.		\$198,824.00
132	9/1/2013	6/30/2016	Leveraging Rotavirus Networks To determine the performance characteristics of tacrolimus-based (TAC) genotyping in comparison to conventional genotyping assays to better assess the role of different enteric pathogens in diarrhea requiring hospitalization among children less than five years of age. The technology will advance the analysis of rotavirus vaccine effectiveness studies by revealing how often cases of rotavirus vaccine failure are actually infections due to other enteric pathogens. Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation		\$1,499,991.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
133	4/1/2011	6/30/2016	Lymphatic Filariasis Morbidity Control in Mali To reduce disability and improve the quality of life for those experiencing chronic complications of lymphatic filariasis in sub-Saharan Africa by providing access to a lymphedema management program in Mali. Current/Previous Funding Partner(s): Izumi Foundation		\$152,000.00
134	8/1/2015	8/31/2018	Making Dialysis Safer for Patients To reduce potentially deadly bloodstream infections in hemodialysis outpatients by targeting patients, healthcare providers and caregivers using evidence-based communications strategies with prevention messages.	Amgen Inc.	\$456,000.00
135	1/1/2013	9/30/2016	Malaria Host-Pathogen Interaction Center (MaHPIC) To study and catalog in molecular detail how malaria parasites interact with their human and other animal hosts and cause disease using the "systems biology" approach. The project will integrate data generated by malaria research, functional genomics, proteomics, lipidomics and metabolomics cores, with the aid of informatics and computational modeling cores. CDC will be providing project support by generating proteomic data in the context of the project's Proteomics Core and the Malaria Core. Current/Previous Funding Partner(s): Emory University	Emory University	\$155,927.00
136	12/1/2007	on-going	Malaria in Pregnancy To evaluate the impact of malaria on pregnancy outcomes in Latin American countries. Current/Previous Funding Partner(s): Emory University Liverpool School of Tropical Medicine		\$2,579,770.34
137	7/1/2006	3/31/2017	Malaria Research and Reference Reagent Repository To support a mosquito stock repository that supplies living and preserved laboratory cultured malaria-vector mosquitoes to researchers studying malaria. Current/Previous Funding Partner(s): Acme Cargo Express Singapore Addia Ababa University		\$5,152,526.23

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
139	10/1/2012	1/30/2016	Maternal Death Surveillance and Response To enable CDC experts to contribute to an international collaboration to reduce maternal deaths through training and implementation support and to contract a local maternal and child health expert to provide continuous, on-the-ground support to ministries of health in East Africa. Current/Previous Funding Partner(s): World Health Organization		\$81,725.00
140	5/1/2013	5/30/2017	Maternal Organics Monitoring Study To collect and analyze blood, cord and urine samples from 200 Alaska Native mother-infant pairs over the period of one year. The levels of persistent organic pollutants, heavy metals, cytokines, selenium and a fatty acid profile in pregnant women and newborn infants will be measured, as will levels of radioactive isotopes, phthalate, mercury, arsenic, polycyclic aromatic hydrocarbons and phytoestrogens. Current/Previous Funding Partner(s): Alaska Native Tribal Health Consortium		\$156,217.75
141	3/1/2008	10/31/2017	Measuring PAHs in a Cohort of NYC Women and Children To evaluate whether exposure to PAHs during pregnancy adversely affects fetal development, asthma development and child health. Current/Previous Funding Partner(s): Columbia University		\$596,242.01
142	10/1/2013	10/31/2019	MenAfriNet Meningitis Surveillance in Africa To establish a regional surveillance network - MenAfriNet - to collect and analyze high quality case-based meningitis surveillance data from representative sites across the African meningitis belt. The meningitis surveillance network will evaluate the impact of MenAfriVac to guide research on new vaccines and strategies to optimize impact of existing vaccines. Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation		\$9,999,999.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash	Cumulative Funding (All Years)
143	1/1/2006	6/30/2015	Menthol, Ethnicity and Nicotine Dependence To examine the relationship of menthol levels in cigarettes, specific smoking behaviors and levels of addictiveness and carcinogenic risk. Results from this study are expected to lead to more effective prevention activities and the reduction of adverse health effects in smokers, with special emphasis on African-American smokers. Current/Previous Funding Partner(s): Ohio State University			\$97,160.00
144	10/1/2014	5/31/2016	Monitoring and Evaluating "Head Safe, Helmet On" To provide technical assistance with the monitoring and evaluation of the U.S. Agency for International Development (USAID) program "Head Safe, Helmet On," which promotes safety and the use of helmets for drivers, passengers and children in targeted provinces in Cambodia.	Asia Injury Prevention Foundation	\$18,800.00	
145	5/1/2010	5/31/2016	Monitoring Malaria Treatment in the U.S. To collect, manage and analyze data on the safety and efficacy of artemether/lumefantrien used to treat cases of malaria in the U.S. Current/Previous Funding Partner(s): Novartis Pharmaceuticals Corporation			\$555,382.00
146	10/1/2012	12/31/2015	Monitoring the Tobacco Epidemic in Africa and Southeast Asia To conduct repeat GATS surveys in Bloomberg-priority countries and implement tobacco questions for surveys in both regions. Current/Previous Funding Partner(s): Bloomberg Philanthropies			\$2,000,000.00
147	9/1/2015	12/31/2016	Mortality Surveillance in Acute Emergencies To establish new collaborations and strengthen partnerships between CDC, Save the Children Foundation in the United States, Save the Children Foundation International, UN agencies and other major humanitarian partners for the purpose of implementing and evaluating two community-based methods of mortality data collection. Current/Previous Funding Partner(s): Enhancing Learning and Research for Humanitarian Assistance			\$8,311.59

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash	Cumulative Funding (All Years)
148	8/1/2013	11/30/2017	Multistate Fungal Meningitis Outbreak Management To respond to an unprecedented outbreak of central nervous system, joint and osseous mold infections that have been observed, beginning in August of 2012, among hundreds of patients who received contaminated methylprednisolone injections. This project will collect long-term follow-up data on diagnosis and appropriate treatment of fungal meningitis and other fungal infections associated with this outbreak in order to fully understand and track the burden of these infections. Current/Previous Funding Partner(s): Gilead Sciences, Inc.	Springer Science+Business Media LLC	\$400.00	\$104,800.00
149	12/1/2010	3/30/2015	National Hepatitis Campaign To help CDC's Division of Viral Hepatitis launch an education campaign in up to three markets to increase awareness of chronic viral hepatitis among healthcare providers and the general public, encourage testing of populations at risk, and ultimately decrease disease and death caused by viral hepatitis in the U.S. Current/Previous Funding Partner(s): Merck Sharp & Dohme Corp. Vertex Pharmaceuticals, Incorporated			\$1,400,000.00
150	12/18/2013	on-going	Newborn Screening Test for Spinal Muscular Atrophy To facilitate collaborative development of a newborn bloodspot screening test to detect the genetic lesions that cause spinal muscular atrophy. The test will be designed to use with public health newborn screening laboratories. Current/Previous Funding Partner(s): Biogen Idec			\$100,000.00
151	3/15/2006	12/31/2016	Newborn Screening Translation Research Initiative To improve four major areas of newborn screening: 1) developing new screening methods for specific diseases, 2) integrating state public health laboratories in the translation process through collaborative field studies, 3) expanding the global reach of newborn screening, and 4) adapting innovative technologies for screening and quality assurance. Current/Previous Funding Partner(s): Genzyme Corporation PerkinElmer, Inc. Various Individual Contributors	Genzyme Corporation	\$254,000.00	\$2,677,000.00

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
		Takeda The University of Queensland, Australia Therapeutic Goods Administration University of North Carolina at Chapel Hill			
154	11/1/2013	5/31/2017	NYC Hanes Lab Study		
		Fund for Public Health in New York (FPHNY)/Department of Health and Mental Hygiene of the City of New York as the recipients of the Laboratory Component of the 2013 NYC Hanes (NYC Hanes "Lab Grant") are subcontracting with DVH laboratory team to conduct sophisticated Hepatitis B, C, and E testing on blood specimens. Current/Previous Funding Partner(s): Fund for Public Health in New York			\$61,062.40
155	1/1/2013	10/30/2014	Ohio River Valley PFOAs and Related Health Ricks		
		To understand whether PFOA affects sterol metabolism, as well as examine the potential impact of PFOA on cholesterol metabolism in the liver and periphery in mice. Current/Previous Funding Partner(s): University of Cincinnati			\$95,772.47
156	1/1/2014	12/31/2017	Optimizing Helmets to Reduce Work-Related Injuries		
		To optimize helmet design to reduce the severity of head injuries at construction worksites. The study will build on CDC's research of digital human modeling of personal protective equipment and will respond to construction industry-wide needs for effective assessment methods to control exposures resulting in fatal and nonfatal work-related traumatic brain injury. Current/Previous Funding Partner(s): ACE Construction Group Liberty Mutual Insurance Turner Construction Company Zurich American Insurance Company			\$120,000.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)
157	12/1/2005	3/31/2015	Organ Transplant Infection Prevention Project To perform a study and create a repository of specimens that will help clinicians better prevent and treat infections among transplant patients. Current/Previous Funding Partner(s): American Society for Microbiology Fallon Medica LLC Gilead Sciences, Inc. Health Research, Inc. Luminex Molecular Diagnostics, Inc. Merck Sharp & Dohme Corp. Norman Regional Health System Pfizer Inc The University of Georgia			\$612,516.00
158	6/1/2015	5/31/2016	PAHs Exposure Assessment in Disadvantaged Areas To demonstrate that a passive wristband sampler can be used to quantify personalized exposure to environmental chemicals such as polycyclic aromatic hydrocarbons (PAHs) with higher compliance and equal accuracy compared to an active air sampler, and to show the utility of a mobile phone-enabled application to concurrently capture lung function measurements.	Columbia University	\$4,471.00	\$4,471.00
159	4/1/2013	on-going	Pappaioanou Veterinary Public Health and Applied Epidemiology Fellowship Endowed fund to provide competitively selected veterinarians and 3rd and 4th year veterinary medical students with opportunities in an applied hands-on training experience in epidemiology, public health, or global health. Each fellow will spend up to one full year at CDC in a U.S. focused or global public health program/project. Current/Previous Funding Partner(s): Various Individual and Organizational Contributors	Texas A&M University Various Individual and Organizational Contributors	\$500.00 \$8,793.15	\$90,934.44
160	9/1/2015	on-going	Partnership Fund for HPV Genotyping To provide technical and analytical expertise in HPV genotyping and immune response measurements to academic and other partners in need of these assays to advance public health objectives related to HPV vaccine impact monitoring and HPV epidemiology. Current/Previous Funding Partner(s): ViroStat, Inc.			\$1,349.32

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)
161	12/1/2014	12/31/2016	Patient Tools for Antibiotic Stewardship Programs To develop a data collection and analysis tool to assess outcomes of Antimicrobial Stewardship Programs.	Cubist Pharmaceuticals, Inc. (now Merck)	\$988,972.00	\$988,972.00
162	7/1/2014	7/31/2016	Paul M. Fernhoff Memorial Lecture Series To host an educational and inspirational lecture that continues the legacy of Dr. Paul Fernhoff who shepherded the development of Georgia's newborn screening program, which now monitors every baby born in Georgia for more than 50 genetic disorders. The lecture series will enhance the visibility and expand the potential benefits of newborn screening. Current/Previous Funding Partner(s): The Legacy of Angels Foundation	The Legacy of Angels Foundation	\$12,000.00	\$24,000.00
163	8/1/2004	7/31/2016	PCBs, Phthalates and Male Reproductive Health To determine if and how exposure to PCBs and phthalates affects male fertility. Current/Previous Funding Partner(s): Harvard University	Harvard University	\$105,018.18	\$636,270.50
164	6/1/2015	2/28/2018	Perfluoroalkyl Chemicals and Metabolic Disorders To evaluate associations of longitudinal measures of exposure to perfluoroalkyl chemicals (PFCs) with detailed cardiometabolic risk measures.	Harvard University	\$353,115.00	\$353,115.00
165	5/1/2014	3/31/2015	Perfluoroalkyl Substance Exposure and Immunity To examine the association between perfluoroalkyl substance (PFAS) exposure and immune function in healthy adults. CDC's Organic Analytical Toxicology Branch will measure the serum concentrations of PFAS in 83 samples collected from participants in the National Institute of Allergy and Infectious Disease Center for Investigating Viral Immunity and Antagonism FluMist vaccine subproject. Current/Previous Funding Partner(s): Mount Sinai School of Medicine			\$11,351.08
166	3/1/2015	9/1/2016	Perfluorocarbon Exposures in Urban Firefighters To establish a reliable picture of the range, median tendency and predictors of perfluorocarbon (PFC) exposures in urban firefighters, and to establish how well the findings independently predict intermediate markers of cardiovascular and respiratory health.	West Virginia University	\$5,470.40	\$5,470.40

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash (During CDC Fiscal Year 2015)	Cumulative Funding (All Years)
167	6/1/2015	6/30/2017	Permethrin Exposure: Biomarkers and Dosimetry To investigate determinants that significantly influence exposure to permethrin among military personnel, a critical step to provide valid predictive models and accurate policy guidance to mitigate any potential health risks associated from the use of permethrin-treated clothing.	US Army Research Institute of Environmental Health	\$202,400.00	\$202,400.00
168	10/1/2012	10/31/2016	PET-C: HCV in Opiate Agonist Treatment Settings To evaluate the acceptance and utility of telemedicine as a method to deliver hepatitis C virus (HCV) management to patients, with the addition of education, prevention, and awareness efforts as a multi-pronged treatment approach among patients on methadone maintenance. Current/Previous Funding Partner(s): Abbott Laboratories Vertex Pharmaceuticals, Incorporated			\$325,000.00
169	1/1/2013	3/31/2015	Phillipine Blood Bank System Evaluation To support the Republic of the Philippines in the prevention of HIV and other pathogen transmission during blood transfusion by providing an assessment of blood bank system safety and quality control parameters. Blood transfusion using donor-provided blood for medical purposes carries the risk of transmitting HIV, Hepatitis B, Hepatitis C and other pathogens. Current/Previous Funding Partner(s): National Voluntary Blood Services Program, National Institute of Health, University of Philippines			\$30,161.00
170	3/1/2008	9/30/2017	Phones for Health To leverage mobile technology to fight HIV/AIDS, TB, malaria and other diseases in 10 developing countries supported by the U.S. President's Emergency Plan for AIDS Relief (PEPFAR). Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation Centers for Disease Control and Prevention Motorola Foundation Voxiva			\$17,875,190.73

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)
171	10/1/2014	12/31/2016	Phthalate Biomarkers and Pregnancy To explore the relationship between maternal environmental chemical exposure and hormone levels at different stages of pregnancy. Current/Previous Funding Partner(s): Brown University	Women & Infants Hospital of Rhode Island (Brown University)	\$50,408.50	\$80,408.50
172	3/1/2015	12/1/2017	Phthalate Exposure and Preeclampsia To use the Combined Antioxidant and Preeclampsia Prediction Study (CAPPS) database and biospecimens to investigate the potential association between phthalate exposure and preeclampsia.	Women & Infants Hospital of Rhode Island (Brown University)	\$6,468.40	\$6,468.40
173	6/1/2015	2/29/2016	Phthalate Exposure in Adults To evaluate the potential association between exposure to phthalates and the development of diabetes and obesity in adults.	University of Illinois at Chicago	\$12,290.26	\$12,290.26
174	10/1/2005		Phthalate Exposure in Pregnant Women Living in New York To measure levels of phthalate metabolites in urine samples of pregnant women in New York City. Current/Previous Funding Partner(s): Columbia University			\$694,634.64
175	8/1/2014	3/31/2016	Phthalate Exposure Testing To test the prevailing hypothesis that exposure to phthalates is ubiquitous and to investigate if among populations with little exposure to commercial plastic and personal care products, phthalate metabolite concentration will be significantly lower than in western populations.	University of Rochester	\$8,029.90	\$8,029.90
176	3/1/2015	on-going	Phthalate, Sperm, and Early Life Development To investigate the association between paternal exposure to phthalates, sperm epigenetics, and reproductive health.	University of Massachusetts Amherst	\$35,727.50	\$35,727.50
177	5/1/2015	3/31/2018	Phthalates and Breast Cancer Risk To evaluate whether exposure to phthalates is associated with breast cancer risk in a nested case-control study within the Women's Health Initiative (WHI).	University of Massachusetts Amherst	\$595,200.00	\$595,200.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
178	3/1/2013	3/30/2015	Phthalates in Pediatric Asthma Patients To assess the level of exposure to phthalates in children with asthma from inhalers and spacers used to deliver corticosteroids. Current/Previous Funding Partner(s): Mount Sinai School of Medicine		\$8,000.00
179	12/1/2014	7/30/2016	Piloting the Cardiff Model for Violence Prevention To facilitate implementation of the Cardiff Model for Violence Prevention in two sites in the United States- Philadelphia, PA, and metropolitan Atlanta, GA. The purpose of the pilot is to document the strengths, challenges and costs of the program and to determine technical needs. The prevention strategies implemented in the pilot will help guide future evaluation research and implementation of the model in the United States.	Robert Wood Johnson Foundation	\$1,100,000.00
180	7/1/2012	12/31/2016	Planes, Trains and Auto-mobility To increase walking in the Atlanta Hartsfield-Jackson International Airport using motivational signage to encourage passengers to walk from the terminal to their concourse rather than ride the airport train. Current/Previous Funding Partner(s): The Kresge Foundation		\$500,000.00
181	5/1/2014	11/30/2016	Pneumococcal Disease in Qatar To evaluate the impact of Pneumococcal Conjugate Vaccine (PCV-13) on vaccine and non-vaccine serotypes causing both invasive and non-invasive diseases in Qatar. The study also assesses the overall prevalence and serotype distribution of S.pneumoniae nasopharyngeal carriage in both healthy and sick children below five years of age over a three-year period. Current/Previous Funding Partner(s): Hamad Medical Corporation		\$184,514.00
182	2/1/2012	11/30/2016	Pneumococcal Evolution and Vaccine Effectiveness To help CDC contribute to research about genetic changes in pneumococcal bacteria that impact the effectiveness of vaccination in developing countries. CDC will provide isolates from their Global Pneumococcal Strain Bank, sequence isolates from the Active Bacterial Core surveillance collaboration, and provide expert guidance on analysis and interpretation of the data. Current/Previous Funding Partner(s): Emory University	Emory University	\$72,900.00
					\$187,300.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
183	8/1/2013	3/31/2015	Pneumococcal Vaccine Impact in Kenya To examine vaccine impact in Kenya before and after the pneumococcal vaccine, PCV10, was introduced. This is a five-year study in collaboration with Kenya Medical Research Institute. Current/Previous Funding Partner(s): Kenya Medical Research Institute		\$248,102.00
184	7/1/2010	12/31/2015	Pneumonia Etiology Research for Child Health (PERCH) To establish a case control study of severe acute lower respiratory infections in children under age five in Thailand to determine the etiology and risk factors associated with pneumonia.	Johns Hopkins University	\$120,734.00
185	7/1/2012	6/30/2016	Point-of-Care Diagnostics for Norovirus To help CDC collaborate in a larger norovirus study by developing glycan-based assays to evaluate a panel of different synthetic glycans as well as naïve norovirus stool strains. Current/Previous Funding Partner(s): Georgia State University	Georgia State University	\$84,450.00
186	11/15/2010	6/30/2016	Polio Antivirals and Strain-specific Immunity To accelerate development of polio antiviral compounds in support of the Polio Antivirals Initiative and to support studies of strain-specific immunity to polio genotypes currently circulating in India. Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation		\$485,563.00
187	10/1/2013	8/30/2015	Polio Vaccine Response in Children in MAL-ED Study To characterize the effect of malnutrition, diarrheal disease, diet, concurrent infections, gut functions and vaccination schedule in response to poliovirus vaccination. The Polio and Picornavirus Laboratory Branch in the Division of Viral Diseases at CDC's National Center for Immunization and Respiratory Diseases will test serum samples from enrollees in the Mal-ED (Interactions of Malnutrition & Enteric Infections: Consequences for Child Health Development) cohort study for neutralizing antibodies to poliovirus 1, 2 and 3. Current/Previous Funding Partner(s): Henry M. Jackson Foundation for the Advancement of Military Medicine		\$97,440.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)	
188	12/1/2011	3/30/2015	POPs and Flight Attendants To assess the amount of exposure flight attendants have to persistent organic pollutants (POPs), specifically flame retardants. Current/Previous Funding Partner(s): Harvard University			\$5,990.60	
189	12/1/2010	12/31/2016	Positive Parenting Program To help CDC's Division of Violence Prevention launch the Positive Parenting Program (Triple P) model through partnerships Federally Qualified Health Centers and local public health agencies. Current/Previous Funding Partner(s): Doris Duke Charitable Foundation			\$1,495,000.00	
190	3/1/2013	3/31/2016	Predictors of Mammary Gland Development To assess the relation between putative early markers of breast cancer risk and exposure to endocrine-disrupting chemicals (EDCs), specifically phenols, such as bisphenol A (BPA), and phthalates in urinary concentrations of select phenols and phthalate metabolites in a cohort of Chilean girls. Current/Previous Funding Partner(s): Harvard University			\$91,792.00	
191	3/1/2015	12/31/2016	Pregnancy and Endocrine Disruptors To assess the feasibility of collecting urine and blood specimens from women who enroll in the Boston University PREgnancy Study Online program and to characterize the distribution of urinary bisphenol A (BPA) and phthalate-metabolites and serum-perfluorinated chemicals in collected urine and blood specimens.	Boston University	\$16,883.60	\$3,391.16	\$20,274.76
192	7/1/2010	12/31/2016	Pregnancy and Phthalates Exposure To measure phthalate levels and evaluate their association with potential birth outcomes in a population of pregnant women living in Puerto Rico. Current/Previous Funding Partner(s): University of Michigan	University of Michigan		\$40,094.04	\$176,006.04

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
193	11/1/2011	on-going	Prenatal Exposure to Infections Lab analyses for prenatal exposure to infections and epilepsy in childhood. Current/Previous Funding Partner(s): Aahus University		\$48,079.00
194	9/1/2013	3/31/2016	Prenatal Exposure to Persistent Organic Pollutants To measure persistent organic pollutants (POPs) and heavy metal concentrations in women in the third trimester of their pregnancy as proxy indicators of fetus exposure in the same period of time. Current/Previous Funding Partner(s): Instituto Nacional de Salud Publica		\$29,741.50
195	4/1/2013	8/30/2015	Prenatal Exposure to PFCs and Child Development The purpose of this study is to investigate the association of prenatal polyfluoroalkyl chemicals (PFC) exposure with growth and neurodevelopment in children. The study will also examine the associations of prenatal PFC plasma concentrations with measures of somatic growth and metabolic outcomes from birth to 7 years of age, the association between prenatal PFC plasma concentrations and neurodevelopment from age 6 months to 7 years and the association between maternal PFCs plasma concentrations during the first trimester of pregnancy and newborn thyroid hormone whole blood levels, as one potential mediator to effects on growth and neurodevelopment. Current/Previous Funding Partner(s): Boston University	Boston University	\$4,950.00 \$255,530.00
196	3/1/2015	12/31/2016	Prenatal Pyrethroid and Toddler Brain Development To study the association between exposure to pyrethroids during pregnancy and children's neurodevelopment at age three. Current/Previous Funding Partner(s): Columbia University	Columbia University	\$45,973.31 \$46,449.58

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
197	8/1/2002	on-going	Prevent Antimicrobial Resistance in Healthcare Settings Campaign To develop a series of health communications aimed at increasing awareness among physicians of CDC's goals of preventing the spread of antimicrobial resistance. The goal of this initiative is to develop an integrated program to prevent emergence and spread of antimicrobial-resistant infections among patients in healthcare settings. Current/Previous Funding Partner(s): BD Cubist Pharmaceuticals, Inc. (now Merck) Kimberly-Clark USA Merck Sharp & Dohme Corp. Ortho-McNeil Pharmaceutical, Inc. Premier, Inc. University of Alabama at Birmingham Vermont Oxford Network, Inc. Wellpoint Foundation		\$597,129.00
198	6/1/2009	6/30/2016	Preventing Infections in Cancer Patients To develop a comprehensive campaign focusing on preventing infections in cancer patients by targeting patients, their families, and their providers to reduce their risk of infection in multiple settings (outpatient office, hospital, and home). Current/Previous Funding Partner(s): Amgen Inc.		\$2,636,513.00
199	7/1/2012	on-going	Preventing Mother-to-Child Transmission of HIV and HBV To help CDC increase understanding of the effectiveness of using maternal tenofovir containing combination drug during the second and third trimesters of pregnancy for the prevention of mother-to-child transmission of HIV and HBV in co-infected mothers. Current/Previous Funding Partner(s): Gilead Sciences, Inc.		\$362,800.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
200	11/1/2011	8/31/2016	Primate Retroviral Transmission To track the transmission of blood-borne microbes between non-human primates and domestic animals living near Kibale National Park, Uganda. Current/Previous Funding Partner(s): University of Wisconsin		\$56,535.15
201	11/1/2011	5/31/2016	Production of Rabies Virus Antigens in Rice To help CDC collaborate in the development of a new rice-based rabies vaccine that has the potential to be safer and less expensive than current oral rabies vaccines. Current/Previous Funding Partner(s): Ventria Bioscience		\$75,549.00
202	9/1/2015	8/31/2018	Protective Immunity to Norovirus in Indian Cohort To establish the role of norovirus as a cause of diarrheal disease and to understand the development of protective immunity in a birth cohort in India.	Christian Medical College, Vellore	\$154,000.00
203	11/1/2010	12/31/2015	Rabies Prevention in Developing Countries To support CDC's work with partners in the Philippines and Central Africa to prevent and reduce rabies transmission between animals and humans through increased vaccination and education. Current/Previous Funding Partner(s): Various Individual and Organizational Contributors	Various Individual Contributors	\$1,000.00
204	11/1/2011	5/30/2015	Rabies Vaccine Stabilization To test the potency, safety, immunogenicity and efficacy of new rabies vaccine stabilization formulations. Current/Previous Funding Partner(s): Universal Stabilization Technologies, Inc.		\$90,080.00
205	5/1/2015	12/31/2016	Rapid Diagnostic Tests for Malaria Elimination To support the development of improved rapid diagnostic tests for malaria elimination making available panels of cultured parasites for product development and validation.	Foundation for Innovative New Diagnostics	\$29,803.60

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
206	4/1/2012	2/28/2015	Reducing Collisions Through Feedback to Truck Drivers To evaluate the effectiveness of two types of feedback on unsafe driving behaviors given to truck drivers employed by FMC Technologies, Inc., in reducing collisions and improving driver safety. Current/Previous Funding Partner(s): Exel Inc. FMC Technologies, Inc.		\$145,142.00
207	5/1/2014	1/28/2015	Reducing Ebola Transmission in Guinea To reduce Ebola virus transmission in Conakry, Guinea, by improving case contact tracing and health messages. The outreach programs will communicate accurate information about the disease and risk factors to the community and health care providers. Current/Previous Funding Partner(s): Alcoa Foundation		\$80,000.00
208	10/1/2007	6/30/2016	Reducing HIV Acquisition Through PrEP - Uganda To assess, through clinical trials in Uganda, the safety and efficacy of pre-exposure prophylaxis (PrEP) with tenofovir and emtricitabine/tenofovir in reducing HIV acquisition. Current/Previous Funding Partner(s): University of Washington	University of Washington	\$4,368,775.60
209	8/1/2011	9/30/2017	Reproductive Health Issues and Exposures to PBBs To measure polybrominated biphenyls (PBBs) and determine the extent of endocrine disruption resulting from exposure to these compounds. Current/Previous Funding Partner(s): Emory University	Emory University	\$11,181.18 \$170,422.36
210	1/4/2011	2/11/2016	Research Fellowships for FETP Graduates To help CDC provide technical assistance and expertise to support the African Programme for Advanced Research Epidemiology Training, a program that provides fellowships and research grants to graduates of Field Epidemiology Training Programs (FETPs). Current/Previous Funding Partner(s): Bernhard Nocht Institute for Tropical Medicine		\$45,707.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash (During CDC Fiscal Year 2015)	Cumulative Funding (All Years)
211	7/1/2013	3/30/2015	Responsive Changes in Levels of PAH Biomarkers To monitor the responsive changes in levels of polycyclic aromatic hydrocarbon (PAH) biomarkers in humans when they are subjected to movement from a low PAH-polluted area (Brisbane, Australia) to a high PAH-polluted area (Hanoi, Vietnam) and vice versa. Background levels of PAH biomarkers in urine collected from participating families, children in Hanoi (highly polluted) and Brisbane (relatively clean metropolitan city), will be monitored and compared with the level of PAH biomarkers in a subgroup that is moving between the two cities. Current/Previous Funding Partner(s): The University of Queensland, Australia			\$5,764.53
212	12/1/2012	12/31/2016	Rift Valley Fever Virus Vaccination Development To assist in the development of novel vaccines and comprehensive strategies for the prevention of Rift Valley Fever virus in both livestock and humans using recombinant proteins and 96-well ELISA or Luminex platforms to detect anti-NP, anti-NSs, or anti-NSm antibodies. Current/Previous Funding Partner(s): Texas A&M University			\$136,472.00
213	10/1/2010	9/30/2016	Road Traffic Prevention and Control in India To work closely with partners in India to develop, implement, evaluate and disseminate evidence-based interventions to address the critical issue of occupational and non-occupational road safety and trauma care and to promote road traffic injury prevention. Current/Previous Funding Partner(s): Conrad N. Hilton Foundation			\$750,000.00
214	9/1/2015	12/31/2017	Role of Phthalates and Vitamin E in Diabetes Risk To investigate the potential role of phthalates and vitamin E in risk of diabetes.	University of North Carolina at Chapel Hill	\$14,291.00	\$14,291.00
215	9/1/2007	on-going	Rotavirus Breast Milk Analysis To collect breast milk from mothers in developing countries with infants less than 6 months of age in order to examine levels of antibody response to rotavirus and compare the inhibitory effect of maternal antibody on vaccine strains. Current/Previous Funding Partner(s): Centers for Disease Control and Prevention Emory University	Emory University National Science and Technology Council	\$2,175.00 \$7,708.20	\$1,223,260.40

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash (During CDC Fiscal Year 2015)	Cumulative Funding (All Years)
		GlaxoSmithKline Biologicals National Science and Technology Council University of North Carolina at Chapel Hill Wuhan Institute of Biological Products				
216	8/1/2013	7/31/2017	Rotavirus Intussusception Study in South Africa			
		To initiate a network of South African hospitals to conduct intussusception surveillance and apply the resource-efficient and scientifically sound case-series analysis to generate vital evidence for monitoring the safety of rotavirus vaccine use. Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation				\$2,382,180.00
217	9/1/2013	2/28/2016	Rotavirus Journal Supplement on Vaccines in India			
		To collaborate with local experts and institutions in India, including the Ministry of Health and Family Welfare (MOHFW) and the Indian Council of Medical Research (ICMR), on the production of a journal supplement focused on rotavirus diarrhea and vaccine in India. Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation	Bill & Melinda Gates Foundation	\$35,428.00		\$275,433.00
218	10/1/2007	12/31/2016	Rotavirus Surveillance			
		To allow countries, primarily in Asia and Africa, to continue rotavirus surveillance activities in anticipation of the introduction of the rotavirus vaccine. Current/Previous Funding Partner(s): GlaxoSmithKline Biologicals Merck Sharp & Dohme Corp.				\$252,232.00
219	10/1/2012	11/30/2017	Rotavirus Surveillance in Ghana and Rwanda			
		To determine, following the introduction of the rotavirus vaccine in Ghana and Rwanda, the impact of the vaccine on rotavirus cases and on diarrhea morbidity from all causes. Current/Previous Funding Partner(s): PATH				\$1,081,502.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
220	8/1/2011	9/30/2016	Rotavirus Vaccine in Developing Countries To develop evidence for improving the performance of live, attenuated, orally delivered rotavirus vaccines in infants in the developing world. Current/Previous Funding Partner(s): PATH	PATH \$22,700.00	\$1,268,930.00
221	12/1/2012	12/31/2017	Rotavirus Vaccine Intussusception Surveillance To develop a network of intussusception surveillance in 6-7 countries planning to adopt rotavirus vaccination in 2012-2014. A key issue for the wide, sustained use of rotavirus vaccines is the demonstration of safety, especially with regard to intussusception, a serious but uncommon intestinal blockage. Current/Previous Funding Partner(s): PATH		\$1,822,803.00
222	6/1/2012	on-going	Safe Delivery for Mothers in Western Kenya To purchase and provide delivery kits, safe blood supply and motorcycle transportation to facilities for expecting mothers in labor to women in Nyanza Province, living within KEMRI/CDC's Health and Demographic Surveillance Systems (HDSS) study area. Current/Previous Funding Partner(s): Various Individual and Organizational Contributors	Various Individual and Organizational Contributors \$1,375.00	\$2,380.00
223	10/1/2008	on-going	Safe Injection Practices Coalition To promote safe injection practices in all U.S. healthcare settings, the Safe Injection Practices Coalition is a partnership of healthcare-related organizations, patient advocacy organizations, industry partners and other public health partners, led by CDC. The Coalition has developed the One & Only Campaign-a public health education and awareness campaign-aimed at both healthcare providers and patients to advance and promote safe injection practices. Current/Previous Funding Partner(s): Accreditation Association for Ambulatory Health Care, Inc. Ambulatory Surgery Foundation Ambulatory Surgery Foundation American Association of Nurse Anesthetists Association for Professionals in Infection Control and Epidemiology, Inc. BD		\$957,177.68

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
		Eli Lilly and Company Hospira, Inc. Mallinckrodt Group Inc. MEDRAD, INC. Nebraska Medical Association Nevada State Medical Association Novo Nordisk Inc. Premier, Inc.			
224	9/1/2009	on-going	Safe Injection Practices Services		
		To prevent the transmission of hepatitis C and other diseases by educating healthcare professionals and health consumers about safe injection practices. Current/Previous Funding Partner(s): Centers for Disease Control and Prevention			\$1,899,999.70
225	7/1/2014	5/31/2017	Screening of Congenital Adrenal Hyperplasia		
		To determine the impact of molecular testing on newborn screening for Congenital Adrenal Hyperplasia (CAH). The goal of the project is to improve clinical outcomes by early detection and treatment of infants affected by CAH and to reduce the burden of false positives on families and providers. The work is led by the University of Minnesota and supported by the March of Dimes. Current/Previous Funding Partner(s): University of Minnesota			\$107,598.00
226	11/1/2011	on-going	Smallpox Zero Reminiscences Project		
		To help the Edward Jenner Museum in Berkeley, UK, collaborate with the David J. Sencer CDC Museum to record smallpox eradication experiences and collect memorabilia worldwide. Current/Previous Funding Partner(s): Conrad N. Hilton Foundation Marguerite Casey Foundation			\$55,000.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
227	4/1/2010	1/31/2016	Social Determinants of Health To provide resources to translate academic literature on social and economic causes of inequities in health and safety into accessible formats for use by health practitioners, communities and the broader public; develop a conceptual framework and methods for collecting, analyzing and making use of data on the structures of decision making that generate health inequities in local jurisdictions; and produce a manual that can be used to guide the development and evaluation of interventions to address inequities in health and safety. Current/Previous Funding Partner(s): W.K. Kellogg Foundation		\$250,000.00
228	10/1/2012	9/30/2016	Stanford Asthma Study To determine biological mechanisms involved in Treg impairment resulting from PAH exposure and their effects on asthma. Current/Previous Funding Partner(s): Lucile Packard Children's Hospital at Stanford		\$107,552.00
229	12/1/2012	12/31/2016	Strategic Planning to Enhance EIS Alumni Association Operations To strengthen the Epidemic Intelligence Service (EIS) Alumni Association (EISAA) and support the EIS Program. The EISAA proposes to fortify the Alumni Association to ensure its robust viability, vision, organization, and resources are oriented to support the alumni network and the EIS Program growth at CDC. A new, interactive EISAA website and heightened EIS recruitment are in development. Current/Previous Funding Partner(s): de Beaumont Foundation		\$24,960.00
230	10/1/2008	12/30/2016	Strengthening Disease Surveillance and Response in Central Africa To strengthen disease surveillance and response programs in select Central African countries. Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation		\$25,495,069.00
231	8/1/2014	6/30/2017	Strengthening Disease Surveillance in West Africa To provide applied epidemiology training to public health officials from the ministries of health of the French-speaking member states that constitute the Economic Community of West African States. Current/Previous Funding Partner(s): West African Health Organisation		\$2,541,437.00

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
232	9/1/2015	9/30/2020	Strengthening Global Emergency Management To fortify elements critical to global health security - public health infrastructure and country capacity - to ensure rapid detection and response of public health threats in the West Africa region.	Centers for Disease Control and Prevention \$400,000.00	\$400,000.00
233	7/1/2014	8/15/2017	Strengthening Laboratory Quality in Kazakhstan To assist the Ministry of Health of the Republic of Kazakhstan in developing quality control mechanisms and a state-of-the-art laboratory quality management system model. The project will strengthen laboratory quality assurance systems and help set up a National Reference Laboratory and four expert laboratories to serve as methodological and educational centers for laboratory networks and build capacity for laboratory staff, managers and decision makers. Current/Previous Funding Partner(s): International Bank for Reconstruction and Development	International Bank for Reconstruction and Development (Ministry of Public Health of the Republic of Kazakhstan) \$585,000.00	\$1,300,000.00
234	9/1/2015	9/30/2016	Strengthening the EIS Alumni Association To strengthen the Epidemic Intelligence Service (EIS) Alumni Association (EISAA) and support the EIS Program. In an era of challenging public health priorities and fewer resources, a growing concern of CDC and the EISAA is ensuring program support in areas in which CDC and government financial and human resources are reduced. The EISAA proposes to strengthen the Alumni Association to ensure its vision, organization, and resources are oriented to support the alumni network and the EIS Program at CDC.	de Beaumont Foundation \$62,400.00	\$62,400.00
235	12/1/2004	on-going	Study of Blood Inhibitors in Hemophilia Patients To monitor hemophilia patients for the development of inhibitors and establish a surveillance system to collect and analyze a uniform set of clinical data. Current/Previous Funding Partner(s): Baxter International Inc. Wyeth Pharmaceuticals		\$6,830,000.00
236	11/1/2014	5/31/2015	Substandard, Falsified and Counterfeit Medicines To identify opportunities for the Centers for Disease Control and Prevention to join public health partners in countering the problem of substandard, falsified and counterfeit medicines.	Pfizer Inc \$108,248.82	\$108,248.82

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
237	2/1/2015	12/31/2017	Supporting Water, Sanitation & Hygiene in Mali To provide both rapid and sustainable access to water to an estimated 66,000 people in healthcare facilities in marginalized, rural, trachoma-endemic communities in Mali.	WaterAid America \$92,038.07	\$92,038.07
238	7/1/2013	ongoing	Sustainable Health Center Implementation PrEP Pilot (SHIPP) Study To learn lessons about how best to incorporate the delivery of daily oral pre-exposure prophylaxis (PrEP) into the services provided by health centers serving sexually active adults at high risk of acquiring HIV infection. The pilot study will initiate data collection at federally-qualified health centers (FQHCs) or look-alikes in four U.S. cities. Current/Previous Funding Partner(s): Gilead Sciences, Inc.		\$4,050,259.00
239	8/15/2010	8/31/2015	Sylvatic Reservoirs of Human Monkeypox To improve understanding of how Monkeypox viruses are transmitted among mammals and humans in Africa. Current/Previous Funding Partner(s): Field Museum University of Wisconsin		\$608,126.00
240	8/1/2010	on-going	Synthesis of XMRV Peptides To develop a mass spectrometry method that can be used to identify and quantify a novel protein produced by the prostate-cancer-associated retrovirus XMRV in patient samples. Current/Previous Funding Partner(s): Edinburgh Napier University Emory University Global Blood Therapeutics, Inc. Lypro Biosciences, Inc. The Children's Hospital of Philadelphia University of Louisville School of Denistry University of Maryland, Baltimore		\$27,184.32

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash (During CDC Fiscal Year 2015)	Cumulative Funding (All Years)
241	5/1/2014	9/30/2016	TB Clinical Research Database & Drug Monitoring To abstract data from medical records of tuberculosis patients to study modeling the pharmacokinetics of second-line anti-tuberculosis drugs. Current/Previous Funding Partner(s): University of Florida			\$46,640.00
242	3/1/2015	5/1/2017	Temporal Variability-Urine Phenol During Pregnancy To study the temporal variability of phenol urinary concentrations during pregnancy, focusing on the between-day and between-trimester variability. The study will identify the efficiency of within-subject pooling of biospecimens to characterize the mean urinary levels of phenols during pregnancy.	INSERM	\$55,188.36	\$55,188.36
243	7/1/2012	on-going	Testing of Sexual Identity Questions by CDC's National Center for Health Statistics To develop and field test questions on sexual identity for inclusion in the National Health Interview Study. Current/Previous Funding Partner(s): Gill Foundation			\$200,000.00
244	1/1/2007	6/30/2016	Testosterone Measurement Harmonization To improve and standardize testosterone measurements to help provide better medical care to people with impaired androgen levels and people receiving androgen therapy. Current/Previous Funding Partner(s): AB SCIEX LLC Abbott Laboratories (formerly Solvay) Roche Diagnostics Corporation			\$3,068,178.50
245	7/1/2002	on-going	The Bob Keegan Polio Eradication Heroes Fund The Polio Eradication Heroes Fund recognizes health workers and volunteers who have incurred serious injury or lost their lives as a direct consequence of their participation in polio eradication activities. The families of the workers, who have been the victims of automobile crashes, military conflicts and other life-threatening events, receive a certificate recognizing the victim's heroic commitment to polio eradication and a cash tribute. Current/Previous Funding Partner(s): Environmental Systems Research Institute Rotary International Various Individual and Organizational Contributors	Various Individual and Organizational Contributors	\$10,851.44	\$211,942.15

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
246	10/1/2013	3/30/2015	The Green Housing Study In partnership with the U.S. Department of Housing and Urban Development, CDC will collect survey and biomarker data from residents and take environmental measurements in homes. Specifically, CDC's Organic Analytical Toxicology Branch will measure environmental phenols and phthalate metabolites in approximately 144 urine samples collected from residents of green and traditional housing. The economic impact of the "greening" of housing, particularly related to health, will be assessed. Current/Previous Funding Partner(s): Silent Spring Institute		\$30,440.16
247	2/1/2015	12/31/2017	The Microbiome in Pregnancy and Infancy To characterize environmental exposures experienced by pregnant women and their infant children and their association with the developing human intestinal microbiome. Concentrations of triclosan and parabens will be measured in urines collected from pregnant women who participated in the Lifecodes study and their infants.	Harvard University	\$10,951.20
248	5/1/2014	4/30/2017	Thyroid Cancer Risk Study To investigate the relationship between polyhalogenated aromatic hydrocarbons (PHAHs) and thyroid hormones and the risk of thyroid cancer. This study will investigate whether the risk of thyroid cancer and thyroid hormone disruption associated with environmental exposure to PHAHs varies by genetic polymorphisms in major genes coding for enzymes involved in the regulation, metabolism or functional activities of PHAHs and endogenous thyroid hormones. Current/Previous Funding Partner(s): Yale University		\$477,491.20
249	2/1/2010	12/31/2016	Time to Conceive and Biomarkers of Infertility To assess the reproductive potential of women exposed to occupational hazards. Current/Previous Funding Partner(s): University of North Carolina at Chapel Hill		\$10,532.19
250	8/1/2015	12/31/2019	Tobacco Constituents in Female Menthol Smokers To measure tobacco exposure biomarkers in female menthol smokers and to examine the potential impact of regulatory actions.	University of Connecticut	\$305,875.40

This document provides a list of CDC Foundation programs that were active between October 1, 2014, and September 30, 2015. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of funding provided during the fiscal year. Where applicable, program funding partners from previous years are listed as a group below the description. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award Cash	Cumulative Funding (All Years)
251	8/1/2014	7/30/2018	Tobacco Control Surveillance in Africa To create a standard surveillance system to monitor tobacco use and key tobacco control measures across Sub-Saharan Africa. The data will enhance and strengthen tobacco control research and policy capacity in low- and middle-income countries, where the emergence of a tobacco epidemic is a concern. Current/Previous Funding Partner(s): Bill & Melinda Gates Foundation		\$4,597,068.00
252	12/1/2009	9/30/2016	Together for Girls To enable CDC to work with individual countries and regions to quantify the problem of sexual violence against girls and subsequently develop evidence-based policies and programs to protect children and prevent violence. Current/Previous Funding Partner(s): BD Henry Schein Cares Foundation Nduna Foundation United Nations Development Programme (UNFPA, United Nations Population Fund)	BD Various Individual and Organizational Contributors \$200,000.00 \$73,664.00	\$1,758,004.07
253	10/1/2013	on-going	Toxicants and Infant Male Reproductive Systems To assess the effects of prenatal phthalate exposure on the developing male reproductive system. Anogenital distance will be used as a marker of exposure to reproductive toxicants and their effects. CDC's Organic Analytical Toxicology Branch will provide biomonitoring data on phthalate metabolites in 786 urine samples collected prenatally from mothers who participated in the Infant Development and the Environment (TIDES) Study. Current/Previous Funding Partner(s): Mount Sinai School of Medicine		\$83,856.00
254	6/1/2007	9/30/2016	Trachoma and Lymphatic Filariasis in Mali To research programs that will contribute to the development of a fully integrated, sustainable and scalable comprehensive control program for trachoma and lymphatic filariasis in Mali. Current/Previous Funding Partner(s): International Trachoma Initiative Task Force for Global Health		\$1,198,756.60

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash (During CDC Fiscal Year 2015)	Cumulative Funding (All Years)
255	6/14/2007	6/30/2016	Treatment of TB with Priftin® (rifapentine) To continue the research and development of the drug Priftin® (rifapentine) and to investigate its role in the treatment of active tuberculosis (TB) disease and latent TB infection. Current/Previous Funding Partner(s): Sanofi-Aventis Sanofi Foundation for North America	Sanofi Foundation for North America	\$671,292.00	\$2,933,292.00
256	6/1/2015	7/31/2016	Understanding Antibiotic Use Data To gain a comprehensive understanding of antibiotic use in inpatient and outpatient healthcare settings in the United States. Current/Previous Funding Partner(s): The Pew Charitable Trusts Various Individual and Organizational Contributors	The Pew Charitable Trusts	\$273,900.00	\$299,400.00
257	3/1/2013	12/31/2017	Vaccine Effectiveness in HIV-Infected Children To estimate the effectiveness of two or more doses of 13-valent pneumococcal conjugate vaccine (PCV-13) against laboratory-confirmed vaccine-serotype invasive pneumococcal disease (IPD) (13 serotypes in the vaccine) among HIV-infected and HIV-uninfected children eligible to receive vaccination through the routine vaccination program in South Africa, compared to no vaccination. Current/Previous Funding Partner(s): PATH			\$214,897.00
258	12/1/2012	10/31/2017	Vaccine Induced Immune Responses to Plasmodial Antigens To support an immunization and chade Beaumontllenge trial of CDC's P. falciparum chimeric MSP1/8 vaccine in nonhuman primates. The specific model will involve studies in the monkey species Aotus nancymae using the P. falciparum FVO strain. Current/Previous Funding Partner(s): Drexel University			\$91,951.00

CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)
259	2/1/2015	2/29/2016	Vaccine Research and Surveillance To conduct vaccine research and surveillance with several countries to determine the burden of vaccine preventable diseases, including meningitis, pneumonia, intussusception and rubella. The partnership will enhance the quality of disease and coverage data and assess vaccine impact. Current/Previous Funding Partner(s): Global Alliance for Vaccines and Immunization	Global Alliance for Vaccines and Immunization	\$2,525,675.00	\$3,514,506.00
260	12/1/2012	2/11/2016	Vertebral Fracture Assessment in NHANES To add vertebral fracture assessment (VFA) to the 2013-2014 National Health and Nutrition Examination Survey (NHANES) using lateral spine dual-energy X-ray absorptiometry (DXA) scans, anterior-posterior (AP) spine and femur DXA scans for bone mineral density (BMD) and a Fracture Risk Assessment Tool (FRAX) which includes questions related to osteoporosis and fractures. Current/Previous Funding Partner(s): Eli Lilly and Company			\$897,132.00
261	10/1/2009	on-going	Viral Hepatitis Action Coalition (VHAC) To provide an overall framework for organizations concerned with viral hepatitis to support high priority research, education and program evaluation projects initiated by CDC's Division of Viral Hepatitis. Current/Previous Funding Partner(s): Abbott Laboratories AbbVie Inc. Alere North America, Inc. American Association For The Study of Liver Diseases Bayer Corporation Boehringer Ingelheim USA Corporation Bristol-Myers Squibb Company Gen-Probe, Incorporated Genentech, Inc. Gilead Sciences, Inc. GlaxoSmithKline Biologicals Janssen Therapeutics Johnson & Johnson Kadmon Pharmaceuticals, LLC	Abbott Laboratories AbbVie Inc. Bristol-Myers Squibb Company Gilead Sciences, Inc. CDC Foundation Active Programs (October 1, 2014 - September 30, 2015)

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award	Cash	Cumulative Funding (All Years)
		Merck & Co., Inc. Mount Sinai School of Medicine Onyx Pharmaceuticals, Inc. OraSure Technologies, Inc. Quest Diagnostics Schering Plough Corporation Siemens USA University of the Sciences Vertex Pharmaceuticals, Incorporated				
262	8/1/2014	7/30/2017	Viral Hepatitis in Resource-Limited Countries			\$4,950,000.00
		To develop an action plan and framework to guide the treatment and testing of viral hepatitis in resource-limited countries. CDC's Division of Viral Hepatitis and the World Health Organization will work directly with ministries of health in key countries to expand capacity and establish and implement effective strategies around viral hepatitis control. Current/Previous Funding Partner(s): Gilead Sciences, Inc.				
263	1/1/2010	on-going	Viral Variants for Rabies Research and Interventions			\$92,873.00
		To generate infectious rabies virus variants from naturally infected animals which can then be used in rabies research designed to improve disease prevention after exposure as well as intervention after disease onset. Current/Previous Funding Partner(s): Ark Sciences, Inc. Global Alliance for Rabies Control The University of Texas Medical Branch				
264	4/1/2013	10/30/2014	Vitamin D and Multiple Sclerosis in Australia			\$6,652.46
		To analyze serum vitamin D in up to 100 participants who were recruited into a previous baseline study as a result of having an episode of central nervous system demyelination, which is often a precursor to multiple sclerosis. Current/Previous Funding Partner(s): The Australian National University

CDCF Start Date	Projected End Date	Program Program Description Current/Previous Funding Partner(s):	Funding Partner (During CDC Fiscal Year 2015)	Committed Award (During CDC Fiscal Year 2015)	Cash (During CDC Fiscal Year 2015)	Cumulative Funding (All Years)
265	7/1/2013	3/30/2015	VZV Antibody Response in HIV-Infected Children To assess the antibody response to varicella-zoster virus (VZV) among school-aged perinatally HIV-infected children and youth to help inform public health officials whether anti-retroviral treatment positively affects both the duration and the level of the antibody response to vaccination in early years following HIV infection. CDC will conduct varicella IgG testing from sera obtained from participants in the Pediatric HIV/AIDS Cohort Study. Findings should indicate whether there is a need to vaccinate these children again. Current/Previous Funding Partner(s): Tulane University			\$87,000.00
266	10/1/2010	on-going	Watching Hands: Artists Respond to Keeping Well To help CDC's Global Health Odyssey Museum organize an art exhibit that explores the messages of hand hygiene as interpreted by contemporary artists. Current/Previous Funding Partner(s): Georgia-Pacific Corporation			\$106,690.00
267	12/1/2014	7/31/2016	Water Quality Testing in Low-Resource Settings To develop the evidence base for use of the Compartment Bag Test, a portable water quality test that determines if drinking water contains E. coli bacteria and poses a health risk. This study will provide international public health organizations scientifically-backed guidance on use of the test in low-resource settings and during emergency response.	Conrad N. Hilton Foundation	\$100,000.00	\$100,000.00
268	2/1/2015	6/30/2016	Word-of-Mouth Travel Health Education Programs To improve acceptance of pre-travel vaccines, medicines, and preventive behaviors among high-risk travelers through evaluation of the outcome of a word-of-mouth (WOM) travel health education program among Asian Indians in the New York/New Jersey/Connecticut area.	GlaxoSmithKline Biologicals	\$240,683.00	\$240,683.00
269	11/1/2012	6/30/2016	Zoster Vaccine and Postherpetic Neuralgia To help CDC participate in a larger research collaboration on zoster vaccine. CDC will 1) perform VZV PCR for detection of viral DNA and discrimination of vaccine strain from wild-type, 2) identify vaccine: wild-type recombinant isolates, and 3) conduct VZV Quantitative PCR on saliva specimens. Current/Previous Funding Partner(s): Kaiser Permanente	Kaiser Permanente	\$16,614.00	\$139,124.00
